# SIG516<sup>®</sup>

## NATURAL EVOLUTION.

Modern warriors needed an AR-15 weapon that could overcome the harshest tactical environments. So we replaced the traditional gas impingement system with a cleaner, easier-to-maintain, short-stroke pushrod. Then we added true ambidextrous controls and refined everything from barrel to grip. The result is the ruggedly dependable SIG516<sup>®</sup>.

Fit the Hands of any Shooter

THE ONLY NAME AS STRONG  
IN POLYMER AS IT IS IN STEEL.

All the safety features and lock-up of a Classic SIG  
in a hard-use polymer package. That's the SP2022®.  
This best-in-class pistol is loaded with grip and trigger  
options. It was the first polymer handgun tough enough  
to be called a SIG. And it's only gotten tougher with time.

SPORT

## STRAIGHT SHOOTER.

An eye for detail and unwillingness to compromise makes Max Michel, Jr., one of the most dominant competitive shooters ever. He is a three-time World Speed Shooting Champion and in 2010 became the first shooter to win all 8 USPSA Area Championships within the same year. Max brings the same passion and dedication to his role as Captain of the SIG SAUER® Shooting Team and Manager of Competitive Shooting Activities. With real-world insight and a relentless focus on quality, Max is helping SIG SAUER build some of the world's finest sport pistols.

SIG SAUER Academy Instructor Certification is a coveted achievement recognized by many state police standards and training boards. Valid for three years, each course allows the student to establish a reproducible training foundation. Instructor certification courses include Force-on-Force, Range Master, Shotgun, Active Shooter, Patrol Rifle, Master Firearms Trainer and more.

## SKILL DEVELOPMENT FOR ARMED PROFESSIONALS

Select courses were researched and developed by the SIG SAUER Academy to strengthen the armed professional's skill set. Designed to enhance survivability, these courses focus on skills including close quarters tactics, executive protection and police marksmanship, as well as operational tactics and techniques.

## RESPONSIBLE CITIZENS

Students can choose from a range of programs acknowledging their skill level, abilities and interests. Foundational classes teach or refresh basic knowledge in shooting rifles, pistols or shotguns. Shooters wishing to compete in practical shooting can hone their skills in a course that is specifically developed for a number of disciplines, while those wishing to enhance their civil awareness skills can take a defensive firearms or concealed carry course. Hunters and outdoor enthusiasts can also benefit from a comprehensive course covering skills ranging from land navigation to hunting with a handgun.

## ARMORER CERTIFICATION

Factory-authorized maintenance to a SIG SAUER® product can only be performed by someone with a SIG SAUER Academy armorer certification. Each course takes a hands-on approach with exercises in troubleshooting, disassembly and reassembly procedures, and techniques. The process results in a learning experience that builds retention of course concepts and a factory certification valid for three years.
