In our world-class facilities, we build the finest firearms, ammunition, electro-optics, suppressors and Advanced Sport Pellet (ASP) airguns, while also offering the highest quality firearms and tactics training at our SIG SAUER AcademySM. We do this because we share the same drive to be the best, the same love of freedom, the same unwillingness to compromise and the same pride in our country as those who choose SIG. Regardless of whether a SIG product will be used by a soldier, a law enforcement officer, or a private citizen, it receives the same rigorous quality control to ensure that it will perform when it matters most.

MADE BY SIGTM

THE COMPLETE SYSTEMS PROVIDERTM

THE EVOLUTION OF SIG SAUER®
MADE BY SIG™

When business entrepreneurs, Friedrich Peyer im Hof, Heinrich Moser, and Conrad Neher opened a wagon factory near the Rhine Falls in Switzerland in 1853, they had no idea that their humble wagon factory would later become known as an international leader in the small arms industry. In response to a challenge from Switzerland's Federal Ministry of Defense, the Swiss Wagon Factory entered a competition to develop a state-of-the-art rifle, in hopes that the Swiss Army would adopt it. Four years later, they found themselves facing an order for 30,000 of the rifles, changing the name of the company to the Swiss Industrial Company. In German, the name was Schweizerische Industrie-Gesellschaft, later shortened to SIG.

In the 1970's, SIG's small arms division expanded to include Hämmerli Target Arms from Lenzburg, Switzerland, and J.P. Sauer & Sohn, GmbH, of Eckernförde, West Germany, known worldwide for their hunting rifles. In the 1980's, SIG set its sights on the United States of America. With a rich history of German and Swiss influence, the company opened its first American location in Tysons Corner, Virginia, under the name SIGARMS. Two years later, the firearms manufacturer relocated to a larger location in Virginia where the company's classic handguns (P220®/P230/P225®/P226®) were imported and assembled. SIGARMS enlarged its footprint on American soil in 1990 by opening new manufacturing facilities in Exeter, New Hampshire. In 2005, SIGARMS changed its name to SIG SAUER, Inc. and continued to expand its market share in the firearms industry.

In 2014, SIG SAUER invested more than \$18 million to develop a new corporate headquarters at Pease International Tradeport in Newington, N.H. Encompassing 206,000 square feet, the leading edge manufacturing plant includes quality control testing facilities, a multi-position test-fire range, and a modern workspace designed from the ground up for efficiency. Today, SIG SAUER serves as the second largest employer in the state and is widely recognized as the fastest growing firearms manufacturer in the United States.

Pioneering designs and state-of-the-art manufacturing capabilities are the hallmarks of the company's past successes, providing the foundation for future growth. SIG SAUER has recently expanded its product line, now offering Elite Performance ammunition, electro-optics, suppressors, and Advanced Sport Pellet (ASP) airguns, earning the company a unique reputation as The Complete Systems Provider™. This total package approach sets SIG apart from other firearms manufacturers, as its diverse and innovative product line and complementary training programs are unmatched in the firearms industry.

SIG SAUER remains committed to hiring the foremost industry experts in all product categories to ensure that all new products live up to the SIG SAUER® name. When it is "MADE BY SIG™", it boasts the same exacting standards of quality, reliability, and performance that have made SIG SAUER the brand the choice of many of the most elite military, government, and law enforcement units across the globe.

FOR THOUSANDS OF YEARS, ONE SYMBOL HAS BEEN A RALLYING CRY FOR THE WORLD'S MOST REVERED WARRIORS.

AND FOR DECADES, ONE BRAND OF FIREARMS HAS SERVED MORE ELITE FIGHTING FORCES THAN ANY OTHER.

WELCOME TO THE LEGION

BY SIG SAUER®

PAINSTAKINGLY ENGINEERED AND ENHANCED FOR THE DISCERNING FEW WITH THE SAME WARRIOR SPIRIT THAT INSPIRED IT.

WE HAVE ALWAYS GIVEN PROFESSIONALS WHAT THEY NEED.

NOW, WE ARE GIVING THEM WHAT THEY WANT.

LEGION  SERIES

sigsauer.com/legion

UNLEASH THE WARRIOR SPIRIT.

The SIG P220®, P226® and P229®, three of the most highly regarded firearms in the professional community, are receiving a series of enhancements based on the needs and wants of elite users. For those who demand the best, we now have something even better.

JOIN THE LEGION.

Become part of the Legion for members-only access to unique opportunities and gear. Purchase and register your Legion Series™ firearm, to unlock a full range of exclusive benefits.

FREE GEAR

Legion membership entitles you to a complimentary Thermo-mold carrying case for your Legion firearm, plus a challenge coin matched to your gun.

EXCLUSIVE ACCESS

When you call to receive your free case and coin, you will be automatically registered as a Legion member, providing you exclusive access to gear and merchandise.

EXCLUSIVE COMMUNICATIONS

Be the first to know about new additions to the Legion Series. You'll also receive other exclusive communications from SIG SAUER® and the Legion.

THIS IS ONLY THE BEGINNING

The initial Legion Series™ models just scratch the surface of the vast SIG SAUER® lineup. In the future, expect to see a broad array of Legion Series firearms and accessories, along with unique experiences only available to Legion owners.

LEGION TOMAHAWK

- ▶ S-7 Steel
- ▶ Legion medallion
- ▶ Hand-Sharpened & Honed Edge
- ▶ Blade guard included for accessory use
- ▶ Black Hogue® G-10 Handle
- ▶ Sheath with Positive and Magnetic Retention
- ▶ Form-Fitting case
- ▶ Made Exclusively for SIG Legion by Hogue

LEGION LEATHER WING OWB HOLSTER LEGION LEATHER WING MAG POUCH

- ▶ Blend of KYDEX® and leather
- ▶ All day comfort with superb concealment and retention
- ▶ Crafted by BlackPoint Tactical
- ▶ Offered with 0 Degree cant.
- ▶ Mag pouch can be joined with holster for an integrated system

LEGION TITANIUM KEY-BAR

- ▶ Compact and organized carry of your keys
- ▶ Removable Titanium pocket clip in your choice of color
- ▶ Finished in gray nitride-coated titanium with black screws

LEGION SUREFIRE® EB1B BACKUP LIGHT

- ▶ Compact dual-output flashlight with a 200-lumen maximum output
- ▶ Ideal for everyday-carry, self-defense, or outdoor applications
- ▶ Indestructible LED emitter and a precision Total Internal Reflection (TIR) lens,
- ▶ Lightweight Mil-Spec hard-anodized aluminum body

LEGION XM-18 KNIFE BY RICK HINDERER

- ▶ The knife that has been sought after by professionals
- ▶ Finished in gray PVD and black G-10
- ▶ 8.25" long with a 3.5" blade
- ▶ CPM S35VN blade material

LEGION PELTOR™ COMTAC™ III HEARING DEFENDER

- ▶ Redesigned cup profiles to better accommodate ACH and MICH helmet compatibility
- ▶ 500 hour battery life, common AAA battery power
- ▶ Comfort gel cups
- ▶ Highest rated (passive) hearing protector available
- ▶ External microphones for "talk-thru" capability

PISTOLS

Choose from a full array of sizes, triggers, calibers, finishes, and features—all with unfailing SIG reliability and accuracy.

INSPIRED BY THE ELITE PROFESSIONAL. CARRIED BY ALL WHO DEMAND THE BEST.

A handgun is a handgun. Unless it's a SIG. Engineered to perform anywhere, at any time, and under any circumstance, SIG pistols boast unique, advanced features that stand out among the rest. Key features include:

SIGLITE® Night Sights

Integral Accessory Rail

4-Point Safety System

Nitron® Stainless Steel Slide

SAS® (SIG ANTI-SNAG)

Threaded Barrels

SRT™ (Short Reset Trigger)

Front Cocking Serrations

SIZING UP YOUR SITUATION

You want a pistol with frame dimensions directly suited to your needs. Whether you'll be sliding your handgun into a range bag or concealing it in a purse, shooting competitively or defending your home, SIG SAUER® offers a pistol for every shooter and scenario.

FULL-SIZE

When shootability and sighted accuracy are a must. Generous dimensions and even weight distribution help to deliver a more accurate sight picture and reduced felt recoil.

Barrel > 4" Frame > 7.5 x 5.5"

CARRY

A balance of shootability with concealment. A full-size grip allows the shooter more control while reduced slide length allows for lighter carry.

Barrel ≈ 3.9" Frame 7 x 5.5"

COMPACT

If concealment is an essential requirement, the reduced slide length and grip height enable easy concealment and carry with ergonomics designed to promote point-and-shoot accuracy.

Barrel < 4" Frame ≈ 7 x 5"

SUBCOMPACT

For the next level of concealment, SIG's subcompact handguns feature even shorter slide length and grip height.

Barrel ≈ 3.5" Frame < 7 x 5"

MICRO-COMPACT

Often called "pocket pistols," the SIG micro-compacts deliver the ultimate in concealment. Discreet, lightweight, and able to fit almost anywhere.

Barrel < 3" Frame < 6 x 4"

TRIGGER TIME

Any expert will tell you, it's the trigger that ultimately puts rounds on target. Weigh the pros and cons of each trigger carefully to select the one you can fire most accurately and carry most confidently.

STRIKER-FIRED TRIGGER

STR | Short Tactile Reset

Once fired the pistol resets quickly with a tactile feel, offering less time between shots.

6 lb Trigger / Striker

HAMMER-FIRED TRIGGERS

DA/SA | Double-Action/Single-Action

The first trigger pull performs the double-action of cocking the hammer and then releasing the sear. Followed by lighter, single action trigger pulls on all subsequent shots. The heavier first trigger pull acts to reduce inadvertent discharges.

10/4.4 lb Trigger / Decocking Lever
Short Reset Available

SAO | Single-Action-Only

The trigger performs the single-action of releasing the hammer with a consistent trigger pull that is generally regarded as the shortest, lightest, and smoothest available. The slide can still be actuated with the safety engaged (a SIG exclusive). All models feature a manual thumb safety.

5 lb Trigger / Manual Thumb Safety

DAO | Double-Action-Only

Every trigger pull performs two actions: first, cocking the hammer, and second, releasing the sear. The pistol remains decocked after each shot and does not require an external safety.

9 lb Trigger

THE CALIBER DEBATE

Popular opinions vary widely. Only you can select the best caliber for you. In addition to the right combination of bullet weight and velocity, think about your desired magazine capacity, plus ammunition cost and availability.

10MM

Offers higher velocity, greater range and more kinetic energy than the .45ACP.

.45ACP

Known for a combination of power and controlled penetration, due to a large diameter bullet and moderate velocities.

.40S&W

Designed to match the performance of the FBI's reduced-velocity 10mm in a smaller cartridge size while offering an energy advantage over the 9mm.

.357SIG

Developed in 1994 to duplicate the performance of a 125 gr. .357 Magnum cartridge, it combines relatively high velocity with remarkably flat trajectory.

9MM

Regarded as the world's most popular and widely used handgun cartridge. It combines a flat trajectory with relatively low felt recoil.

.380ACP

Compact and light design make it popular in handguns designed for concealed carry. Less powerful than larger calibers minimizing recoil and improving controllability.

.22LR

Among the lightest and most affordable rounds in handguns, the .22LR is ideal for target shooting and training.

PISTOL GUIDE

SIG SAUER® pistols can be grouped into three family categories; Classics, Polymer and 1911-style.

CLASSICS

All-metal durability, DA/SA trigger, plus a 4-Point Safety System including decocking lever, safety intercept notch, trigger bar disconnect and patented automatic firing pin safety block.
(SAO available in select models)

POLYMER

Proven SIG engineering in hard-use polymer, this series offers options in size, caliber, and trigger system.

1911-STYLE

The crisp SAO trigger system and styling of the 1911, enhanced by SIG engineering and all-metal durability.

CUSTOM SHOP

Expert Skills, Maintenance and Performance Testing

The SIG SAUER® Custom Shop offers a wide range of services to keep your SIG SAUER pistol in peak operating condition. Services include refurbishing, action jobs, sight replacement and service programs that won't void your warranty. With years of experience and a detailed understanding of the SIG product line, our gunsmiths can bring your pistol back to top performance and appearance using only original factory parts and finishes.

CUSTOM SERVICES

ACTION ENHANCEMENT PACKAGE

- Hone and polish critical surfaces to lighten and smooth both the double-action and single-action trigger pulls
- Includes Feed Ramp Polish
- Excludes SP2009, SP2340, SP2022®, 226X5/X6, Mosquito, 1911-22, P210®, P220® SAO, P226® SAO, P232®/230®, P238®, P938®, P250®, P290® and DAK models

ACTION ENHANCEMENT PACKAGE FOR 226X5 AR (ALL AROUND)

- Hone and polish critical surfaces to lighten and smooth both the double-action and single-action trigger pulls
- Includes Feed Ramp Polish
- For the 226X5 All Around model only, not available for any of the other X5 or X6 models

SHORT RESET TRIGGER PACKAGE

- Retrofit your P220, P224®, P225®, P226, P227®, P228®, P229®, P239® and P245™ with sear and safety lever parts
- Reduces the trigger reset travel by about 60%
- Perfect for both competition and combat shooters who want to reduce their follow-up shot times
- Price includes parts and labor
- Original parts returned with your firearm

FULL SERVICE PACKAGE

- Detailed stripping and complete and thorough cleaning of the entire pistol
- Professional safety inspection of critical components by factory certified personnel
- Replacement of springs prone to wear (trigger bar spring, slide catch lever spring, recoil spring) and any needed small parts
- Lubrication to factory standards, reassembly and function testing.
- Not available for 1911-22 or Mosquito models

For more information on Custom Shop services, or instructions to send in your pistol for service, call the SIG SAUER Customer Service Department: (603) 610-3000, option 1. Please have your pistol's serial number on-hand. All firearms shipped to SIG SAUER must have a Return Material Authorization (RMA) number or they will be refused and returned to the sender.

A high-quality photograph of a SIG Sauer rifle, possibly an AR-15 style, lying on a camouflage-patterned tactical bag. The rifle is equipped with a scope and a magazine. The lighting is dramatic, highlighting the textures of the rifle and the bag. The background is dark, making the rifle and bag stand out.

RIFLES

While others may settle, SIG uses world-class engineering to elevate and redefine every aspect of rifle performance, delivering unmatched reliability and precision.

○ DENOTES MAGZINE CAPACITY | SIGHTS SOLD SEPARATELY

Not just another AR, but an entirely new rifle platform and complete weapons system—fully configurable for any scenario or environment.

THE FIRST TRUE MISSION-ADAPTABLE WEAPONS SYSTEM, USED BY THE MOST ELITE MILITARY UNITS IN THE WORLD.

Introducing the SIG MCX. Engineered from the ground up to be silenced, light, and short. With an innovative short-stroke gas piston operating system, users can change barrels, calibers, stocks, and handguards in the field. Hardened and replaceable upper receiver wear points, ambi AR-style controls, and backward compatibility with legacy MILSPEC AR lower receivers. The SIG MCX eclipses everything that has preceded it.

Rail-Mounted Stocks
(Folding/Collapsible/Telescopic)

Reinforced Cam Path and Feed Ramp

User-Changeable Barrels

KeyMod™ Handguards

AR-Style Ambidextrous Controls

M1913 Picatinny Top Rail
and Free-Floating Barrel

Integral Steel QD Sling Points

Flared and Beveled Magwell

ONE SYSTEM. ANY SITUATION.

The first true mission-adaptable weapons system engineered to be silenced, light, and short.

ELITE PERFORMANCE AMMUNITION

Amid relentless testing of perfected variations in weight retention, energy transfer and controlled expansion, SIG Elite Performance Ammunition delivers a higher standard of maximized reliability and accuracy across every caliber. Manufactured to SAAMI standards in the SIG SAUER, Inc. plant in Arkansas, SIG V-Crown®, FMJ and Match Grade ammunition have earned the same reputation for quality that consumers have come to expect from every SIG product.

2016 Shooting Illustrated
Ammunition Product of the Year
V-CROWN

SIG V-CROWN JACKETED HOLLOW POINT

Learn more about the Ammo line at sigsauer.com/ammunition

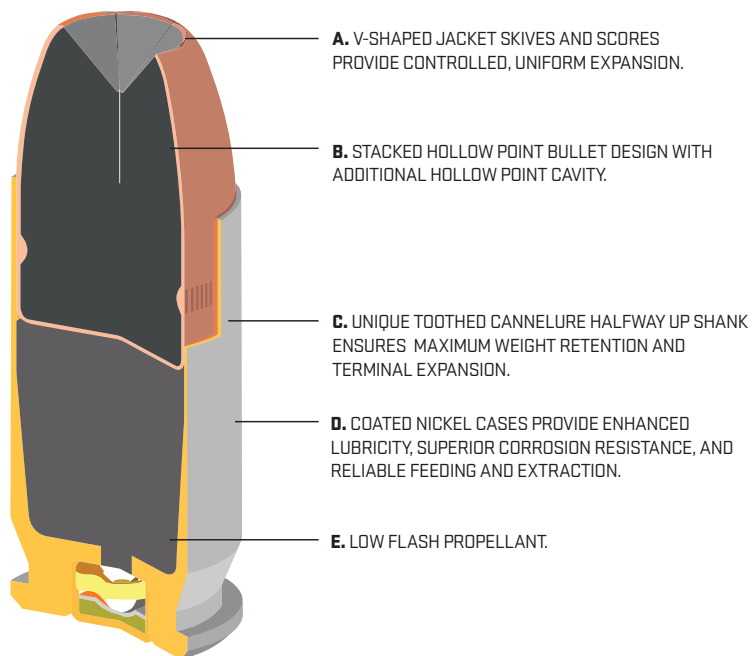

Jacketed Hollow Point Pistol Cartridges

Ballistic Features

Innovative SIG V-Crown cartridges utilize a perfect storm of features from low-flash propellant to a cannellured shank, resulting in maximum weight retention with reliable terminal ballistic performance.

- Consistent Penetration
- Uniform Controlled Expansion
- Maximum Weight Retention

SIG V-Crown defensive rounds combine perfected material specifications and fine-tuned design innovations, featuring a stacked hollow point cavity, to deliver exceptional on-target energy with maximum weight retention and optimal expansion – the ultimate in stopping power.

V-Crown Loads are optimized for maximum terminal ballistic performance in small-frame firearms including 380 AUTO 90 gr, 9 MM Luger 115 gr, 44 S&W SPL 200 gr, 45 AUTO 185 gr, and 38SPL +P 125 gr.

PRECISION MATCH GRADE RIFLE CARTRIDGES

Engineered with the SIG MCX® mission configurable rifle in mind, SIG 300 BLK runs with all Std NATO magazines.

SIG Match Grade rifle rounds are engineered to excel in today's precision auto-loading platforms as well as bolt-action rifles. Consistent bullet weight retention with minimal velocity variations from optimized shell case metallurgy with premium primers. Rounds are precision-loaded using state-of-the-art, electromechanical monitoring for geometric conformity.

FEATURES

- Minimal Velocity Variations
- Precision Loaded for Conformity
- Maximum Bullet Weight Retention
- Renowned Sierra MatchKing® Projectile
- Temperature Stable Propellants

SIG 300 BLK SUBSONIC

SIG propellant chemistry has been optimized to produce the ideal amount of down-bore pressure for cycling both piston and gas-driven platforms, with or without sound suppression. SIG 300BLK Subsonic rounds minimize recoil, sound and muzzle flash, while maximizing the number of hits on target.

SIG 300 BLK SUPERSONIC

The ultimate round for precision shots at extended range, SIG 300BLK Supersonic features Sierra MatchKing® projectiles in a pointed meplat design for maximum velocity retention – yielding flatter trajectories and more on-target energy.

SIG HT™ HUNTING CARTRIDGES

SIG HT superior hunting rounds yield consistent 1.8X diameter expansion using premium-quality powders and primers for minimum velocity variation. Perfected for AR style rifle feeding, optimized nose geometry combined with premium nickel-plated shell casings deliver consistently reliable accuracy for taking down game.

FEATURES

- Consistent 1.8X Diameter Expansion
- Minimal Velocity Variation
- Lead-Free Projectile
- AR-Style Rifle Feeding

SIG 223 REM

The 60gr 223 Rem bullet has a muzzle velocity of 3,100 fps and muzzle energy of 1,280 ft-lbs, making it an effective, hard-hitting varmint and predator round.

223 REM

SIG 300 BLK

The 120gr 300 BLK bullet has a muzzle velocity of 2250 fps and muzzle energy of 1,349 ft-lbs making it an effective, hard-hitting hog, varmint and predator round, including mid-sized game.

300 BLK

SIG 308 WIN

The 150gr 308 Win features a muzzle velocity of 2,900 fps and muzzle energy of 2,801 ft-lbs. This SIG HT 308 Win cartridge is excellent for mid-sized game including deer, antelope, hogs and predators.

308 WIN

SIG HT HUNTING

VP

Varmint & Predator Cartridges

NEW

SIG SAUER Varmint & Predator rounds utilize smoked gray tipped projectiles designed specifically for explosive expansion and unmatched accuracy. All loads feature projectiles that are light for their caliber (40 grains for the 22 caliber, 55 grains for 6mm), yielding higher muzzle velocities and flatter trajectories across all practical hunting distances. The Varmint and Predator rounds contain the same high quality single base extruded powders as SIG Match Grade rounds. This ensures consistent round-to-round muzzle velocities and insensitivity to temperature change. All SIG SAUER Varmint & Predator rounds are produced on state-of-the-art loading equipment with electromechanical monitoring for charge weight consistency and geometric conformity.

FEATURES

- Match Grade Accuracy
- Flat Trajectories
- Explosive Expansion

223 REM

22-250 REM

243 WIN

Full Metal Jacket Cartridges

Engineered to match SIG V-Crown® ballistics for a more seamless transition from practice to carry ammunition, SIG FMJ Ammunition delivers round after round of affordable, premium-level performance. Featuring dependable primers and the same exceptional, clean-burning propellants used in the breakthrough defense rounds, SIG FMJ durable copper-jacketed bullets remain intact on impact with equivalent point-of-impact, recoil and energy. Practice or competition, SIG FMJ measures up.

FEATURES

- Ballistically Matched to SIG V-Crown
- Affordable Practice
- Premium Performance

ELECTRO-OPTICS

We have developed truly game-changing optics for all types of shooters: military, law enforcement, hunters, and competitive shooters.

SEE THE DIFFERENCE: ADVANCED ELECTRONIC TECHNOLOGY AND SUPERIOR DESIGN.

SIG SAUER® Electro-Optics fuses together advanced electronic technologies, superior, high-definition glass, and military-inspired designs to achieve maximum clarity, accuracy, and performance shot after shot.

SIG SAUER® ELECTRO-OPTIC **INFINITE GUARANTEE™**

- Unlimited Lifetime Guarantee
- Fully Transferable
- No Warranty Card Required
- No Receipt Required
- No Time Limit Applies
- No Charge

Electronic and Tritium Limited **5-YEAR WARRANTY**

Covers any defects in materials and workmanship in the electronic and Tritium components of illuminated riflescopes/sights, pistol sights, electronic sights, flashlights, lasers, binoculars, spotting scopes and rangefinders for five years from date of manufacture.

2016 Guns and Ammo Optic of the Year

ROME01®

Learn more about the complete Electro-Optics line at sigsauer.com/optics

SBT® / SIG Ballistic Turret

- ▶ a custom, laser-etched elevation dial on most SIG SAUER® TANGO and WHISKEY riflescopes
- ▶ matched to the ballistics of the shooter's system at no extra cost
- ▶ inputs bullet specifications, ballistic coefficient, muzzle velocity, elevation, and other environmental factors
- ▶ allows for correct bullet drop compensation and pinpoint accuracy at any range

FREE CUSTOM SBT DIAL

ON ALL TANGO AND MOST WHISKEY RIFLESCOPES

**LOCKDOWN® ZERO SYSTEM**

- ▶ zero stop-locking turret allows a rapid return to Zero and locks at Zero
- ▶ eliminates concern about how far to turn the elevation dial to return to Zero

STEALTH ID™

- ▶ deflection armor trapezoidal surfacing breaks up the shape and visibility of the optic
- ▶ slide serrations and grip checkering add function to the form of all SIG SAUER electro-optics

HELLFIRE® RETICLE

- ▶ electronically illuminated utilizes advanced fiber-optic technology
- ▶ varies the light intensity of the central aiming point from IR (InfraRed) dim to HellFire bright for daylight illumination
- ▶ results in a bright, defined aiming point for precision shot placement in any condition

LEVELPLEX™ ANTI-CANT SYSTEM

- ▶ utilizes an integrated digital level that is accurate to +/- 0.5°
- ▶ offered in FFP with 4 different reticle options (MOA Milling, MRAD Milling, MOA DEV-L Holdover, and MRAD DEV-L Holdover)

MEGAVIEW™

- ▶ provides massive Field of View (FOV), allowing faster target acquisition
- ▶ enhances awareness of objects in the shooter's periphery

ALT™ | Aspheric Lens Technology

- ▶ eliminates aberration, reduces weight, and helps to focus the projected image through the lenses
- ▶ superior low distortion optical performance

SPECTRACOAT™

- ▶ highly efficient, ultra-wide broadband, anti-reflection lens coatings
- ▶ reduces surface reflections to extremely low levels across the entire visible spectrum
- ▶ provides superior light transmission

HDX™

- ▶ comprises both High Definition (ED) and High Transmittance (HT) glass
- ▶ ultra-high resolution, optical performance, and light transmission

LENSARMOR™

- ▶ abrasion-resistant lens coatings
- ▶ extreme durability ensures the lenses on the scope will stay sharp, bright, and clear

LENSHIELD™

- ▶ Mil-Spec™ oleophobic coating
- ▶ sheds water, oil, and gunk, ensuring a clean sight image at all times

MOTAC™ | Motion Activated Illumination

- ▶ motion-sensing technology
- ▶ powers up illumination when sensing motion, and powers down when it does not, extending battery life

SOLAR POWERED ILLUMINATION SYSTEM

- ▶ powered by a solar cell
- ▶ extends runtime and improves daylight brightness of the reticle without a battery

TRUHold™

- ▶ lockless zeroing system
- ▶ utilizes twin adjustment springs designed and torture-tested to endure handgun recoil and return to zero shot after shot

SOS™ / SIG Optic Stabilizer

- ▶ proprietary SIG Optic Stabilizer system
- ▶ gyroscopically stabilized to cancel out unwanted shaking and vibrations that can blur an image, especially at higher magnification levels

AMR™ / Angle-Modified Range

- ▶ ranging technology using an on-board inclinometer
- ▶ reads incline / decline angle and modifies the effective ballistic shooting range to the target
- ▶ equivalent horizontal range, integrating perfectly when used with SIG Ballistic Turret dials

LIGHTWAVE DSP™ / Digital Signal Processing

- ▶ leverages HyperScan, and advanced power management technique, providing the fastest refresh rate in scan mode (4 times per second)
- ▶ uses the latest generation Field Programmable Gate Array (FPGA)
- ▶ reduces false positives while finding weak or distant targets

LUMATIC DISPLAY™

- ▶ proprietary OLEO (Organic Light Emitting Diode) Display™
- ▶ ambient light sensor continuously monitors light conditions and adjusts the display brightness accordingly
- ▶ no other display offers this adaptive ability to prevent the shooter's pupil from constricting in low-light conditions

SIG TANGO6™

The TANGO6 super-zoom 6X riflescope line has you covered from close quarter battle operations to long range shooting, from 3-Gun competitions to hunting dangerous game, from bolt-actions to MSR's.

ROMEO4S® 1X20MM

SOLAR POWERED 100,000+ HOUR BATTERY LIFE

SOR43021, SOR43022

- ▶ Designed For Modern Semi-Automatic Pistols, MSR Platforms And Shotguns
- ▶ Short And Medium Range Engagements And Recreational Shooting Across A Wide Range Of Calibers And Light Conditions
- ▶ Extremely Strong And Light Cnc Aluminum Housing
- ▶ Runtime In Excess Of 100,000 Hours With Solar And Battery Usage
- ▶ Comes standard with lens caps and quick-release mount
- ▶ Users can select from 4 different reticle options (Dot, CircleDot, Dot with holds, CircleDot with holds)

NEW

ROMEO4T 1X20MM

TACTICAL SOLAR POWERED AND 100,000+ BATTERY LIFE

SOR43031, SOR43032

- ▶ Designed For Modern Semi-Automatic Pistols, MSR Platforms And Shotguns
- ▶ Short And Medium Range Engagements And Recreational Shooting Across A Wide Range Of Calibers And Light Conditions
- ▶ Fully Ruggedized And Impact Resistant For The Toughest Environments
- ▶ Ultra Durable And Lightweight 7075 Aluminum
- ▶ Runtime In Excess Of 100,000 Hours With Solar And Battery Usage
- ▶ Comes standard with lens caps and hex bolt mount
- ▶ Users can select from 4 different reticle options (Dot, CircleDot, Dot with holds, CircleDot with holds)

ROME05[®] / ROME06[®]

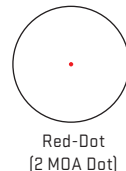

The ROME05 Red-Dot Sight mounts on any platform, and is as tough as it is micro. The solid, lightweight aluminum design will give peak performance and years of service, making it a trusted companion for men and women in the US armed forces and responsible citizens alike.

The KILO family of Digital Laser Rangefinders is engineered for extreme accuracy. KILO products are the most advanced and yet simple to use rangefinders on the market today. Updating at 4x per second in HyperScan mode, all KILO rangefinders come with patented LightWave™ DSP technology, are lightning fast as well as amazingly accurate.

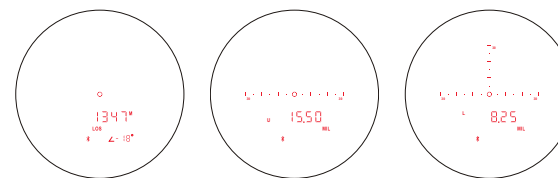

Tripod Adapter

WindMETER

KILO2400ABS syncs with a smart phone via the Applied Ballistic's Ballistic Solver app. Calculating long-range rifle trajectories for the perfect shot. (Smart phone app display shown.)

Configurable reticle with 3 options: Center Aiming Circle only, Center Aiming Circle & Horizontal Milling Grid, and Center Aiming Circle & Horizontal and Vertical Milling Grid

NEW

KILO2400ABS RANGEFINDER

7x25MM

SOK24701

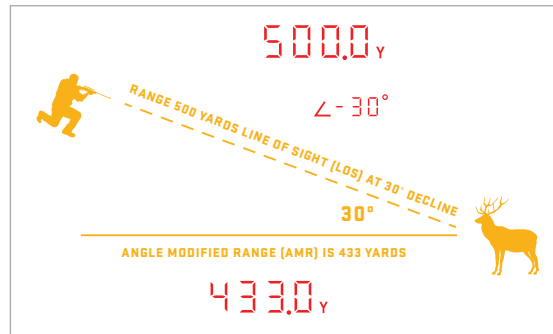

- Ranges up to 2 miles with the Revolutionary LightWave DSP™ Technology for the fastest and longest distance rangefinder engine.
- Advanced Rangefinder featuring an Embedded Applied Ballistics Calculator and Bluetooth for Synchronizing with a Free Applied Ballistics App. Available on both iOS and Android platforms
- Integrated Temperature, Humidity, Pressure and Compass
- New Milling Reticle with 2.4 MRAD inner diameter and 3 MRAD Outer Diameter center aiming circle. Milling features are 5 MRAD to the dots and 10 MRAD to the lines.
- Includes a Tripod Adapter, Smartphone Jack WindMETER, Ballistic Nylon Mole Kit Bag, Nylon Carry Pouch, Tactical Pen/Stylus, Lanyard and 3 Spare Batteries

DIGITAL LASER RANGEFINDERS	
KILO	INFINITE GUARANTEE™ ELECTRONICS LIMITED 5 YEAR WARRANTY

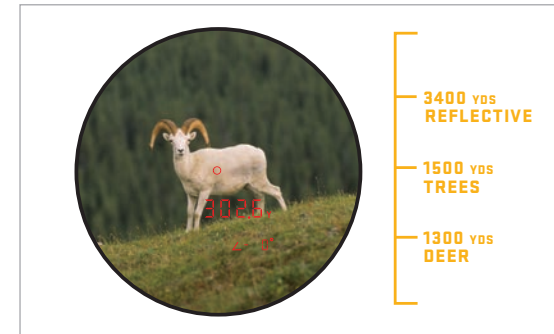

KILO2400ABS & KILO2200MR	FEATURES KILO1250 & KILO 850
Will range over a mile with results displayed to the nearest 1/10th yard	Compact, lightweight polymer housing with diopter adjustment
Lumatic OLED Display™, continuously monitors light conditions & adjusts the display brightness accordingly	User selectable target modes featuring LAST or BEST for pinpoint accuracy
Multi-position twist-up eyecup provides a custom fit for each user	Powered by a Lithium CR123 Battery

COMPLETE SPECS PG. 93 | ELECTRO-OPTIC GLOSSARY PG.63 | ALL SPECIFICATIONS SUBJECT TO CHANGE

THE COMPLETE SYSTEMS PROVIDER™

ANGLE MODIFIED RANGE, AMR™ is advanced ranging technology using an on board inclinometer that reads incline/decline angle and modifies the effective ballistic shooting range to the target.

Lightwave DSP™ (Digital Signal Processing) engine leverages HyperScan—an advanced power management technique that provides the fastest refresh rate in scan mode (4 times per second) even at distances over a mile.

NEW

KILO2200MR® 7X25MM DIGITAL LASER RANGEFINDER

SOK22701

- Ranges up to 2 miles with the Revolutionary LightWave DSP™ Technology for the fastest and longest distance rangefinder engine.
- SpectraCoat™ anti-reflection coatings for superior light transmission and optical clarity.
- HyperScan™ Technology provides 4 range updates per second in scan mode while RangeLock™ reports the last range result when ranging distant targets.
- Advanced OLED display provides a smaller, more accurate center aiming circle along with milling features.

NEW MODELS

KILO1250 6X20MM DIGITAL LASER RANGEFINDER

SOK12601, SOK12602

- Ranges up to 1600 yards with the Revolutionary Lightwave™ DSP Technology for the fastest and longest distance rangefinder engine
- Features line of sight (LOS) or angle modified range (AMR). Units in yards or meters to tenth Y/M resolution
- High Transmittance LCD display
- User selectable target modes featuring LAST or BEST for pinpoint accuracy
- Simplified user interface with RANGE and MODE buttons only
- Available in Viper Western Camouflage

NEW MODELS

KILO850 4X20MM DIGITAL LASER RANGEFINDER

SOK85401, SOK85403

- Ranges up to 1200 yards with the Revolutionary Lightwave™ DSP Technology for the fastest and longest distance rangefinder engine
- Features line of sight (LOS) or angle modified range (AMR). Units in yards or meters to tenth Y/M resolution
- Transmissive LCD display
- User selectable target modes featuring LAST or BEST for pinpoint accuracy
- Simplified user interface with RANGE and MODE buttons only
- Available in Viper Woodlands Camouflage

The LIMA1 low profile laser sights are designed for handguns with rails. There is no need for adapters or cross-slot modifications. The SIG SAUER proprietary LIMA5 Laser Grip Module integrates and fits perfectly with our P320® and P250® pistol platforms. LIMA Red or Green Lasers are the most advanced, low profile laser sights on the market and are virtually invisible to the operator.

NEW

LIMA1 PISTOL LASER SIGHT

RED OR GREEN LASERS

SOL11001, SOL11002

- ▶ Ideal for Target Shooting, Conceal Carry and Personal Defense
- ▶ Low Profile Laser Sights for Handguns with Rails
- ▶ Mounts to any Picatinny 1913 or SIG Proprietary Rails.
- ▶ Powered by a Lithium 1/3N Battery
- ▶ Dual finger actuated paddle switches support ambidextrous use

NEW

LIMA5 LASER GRIP MODULE

RED OR GREEN LASERS

SOL51001, SOL51002

- ▶ Integrates and Fits Perfectly with our P320® and P250® Pistol Platforms
- ▶ State-of-the-Art Laser Targeting in a Package That is Stealth and Virtually Invisible to the Operator
- ▶ Same Material as SIG SAUER Standard Polymer Frames and Textured to Match
- ▶ Seamlessly Integrates Either a Red (Oclaro) or Direct Green (Osram) High Quality and High Efficiency Laser Module for Extreme Accuracy
- ▶ Powered by a Lithium 1/3N Battery in the Palm Swell
- ▶ Works with Carry, Compact and Full Size

PISTOL LASER SIGHTS & MODULES		FEATURES	
LIMA	ELECTRONICS LIMITED 5 YEAR WARRANTY	Latest generation 5 mW Red or Green lasers for unmatched runtime	Bottom mounted battery compartment allows for easy access without removing the laser
		Ambidextrous paddle switches for easy finger actuation	Windage and Elevation adjustments
		Momentary or Continuous On with 5 minute auto-timeout	Waterproof (IPX-7 rated for complete immersion up to 1 meter) and fog-proof performance

SIG OSCAR™

The revolutionary OSCAR3 mini spotting scope features advanced electronic image stabilization technology that fits in the palm of a hand – no tripod required. The OSCAR5 and OSCAR7 spotting scopes offer an industry-leading HDX™ optical design combining extra-low dispersion glass with high-light transmittance glass to provide you with the maximum in color clarity and image brightness.

NEW

OSCAR7 20-60X82MM

ANGLED SPOTTING SCOPE

SOV72001

- ▶ Offers an Industry Leading HDX Optical Design that Combines Extra-Low Dispersion and High Light Transmittance Glass
- ▶ State-of-the-Art Triplet Apochromatic Lens System
- ▶ Maximum in Color Clarity and Image Brightness for Unmatched Resolution and Image Contrast
- ▶ Angled Eyepiece with Rotating Tripod Collar Provides Multiple Viewing Angles

OSCAR5 15-45X65MM

SPOTTING SCOPE

SOV51501

- ▶ Dependable, Rock-Solid Spotting Scope with Bright, Crystal Clear Optical Clarity
- ▶ Industry Leading HDX™ Optical Design
- ▶ Maximum in Color Clarity and Image Brightness for Unmatched Resolution and Image Contrast
- ▶ Easy-to-Manipulate Eyepiece and Focus Knob

OSCAR3 10-20X30MM

IMAGE-STABILIZING MINI SPOTTING SCOPE

SOV31001

- ▶ Advanced Electronic Image Stabilization Technology that Fits in the Palm of a Hand
- ▶ Proprietary SOS™ System is Gyroscopically Stabilized, Cancels Out Unwanted Shaking and Vibrations
- ▶ Ideal for Backpacking, Hunting, Wildlife and Sports Observation, Law Enforcement, and Military Reconnaissance

SPOTTING SCOPES		FEATURES OSCAR3		FEATURES OSCAR5 & OSCAR7	
OSCAR	INFINITE GUARANTEE™ ELECTRONICS LIMITED 5 YEAR WARRANTY	SOS™ (SIG Optic Stabilizer): Stabilizes the image and virtually eliminates a shaky image		OSCAR5 is a straight eyepiece configuration with a built-in lens shade to reduce glare	
		The small size and ranging capability of the OSCAR3 is ideal for backpacking, spot/stalk and tree stand archery, or long range rifle hunting in open country or mountains as well as concealed viewing situations for LE or Military use		Angled eyepiece of the OSCAR7 along with a rotating tripod collar, provide multiple viewing angle	
				Fully multi-coated lenses combined with HDX glass provide extreme clarity and brightness	

COMPLETE SPECS PG. 92 | ELECTRO-OPTIC GLOSSARY PG. 63 | ALL SPECIFICATIONS SUBJECT TO CHANGE

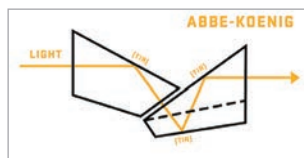

Next to a zeroed rifle, a clear and bright pair of binoculars is the best piece of gear to have on hand. ZULU binoculars perform in the harshest conditions, giving unmatched performance in inclement weather or rugged terrain.

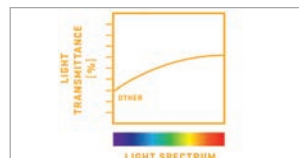

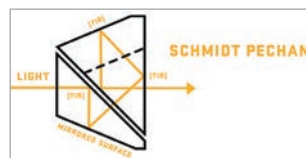

ZULU9 ABBE-KOENIG PRISMS

9x45MM HDX	SOZ99001
11x45MM HDX	SOZ99002

- Combines Superior Optical Performance with in-the-field Utility
- High Quality Glass, Fully Multi-Coated Spectracote™ Lenses
- Phase-Coated Abbe-Konig Prisms Provide Maximum Brightness, Contrast and Crisp Resolution
- Performs in the Harshes Conditions, Giving Unmatched Performance in Inclement Weather or Rugged Terrain

The Abbe-Koenig prism system eliminates the mirrors used in conventional roof prism binoculars. Using Total Internal Reflection (TIR) for all reflections inside the prism, the ZULU9 provides 8-15% higher light transmission than a standard roof prism design.

Advanced optical systems comprising both High Definition (ED) and High Transmittance (HT) glass

BINOCULARS		FEATURES	
ZULU	INFINITE GUARANTEE™	Rugged and durable, the ZULU binoculars incorporates a magnesium housing	Multi-position twist-up eyecups create generous eye relief
		Oversized chemical resistant fluorescent polymer front dot gives confidence in any environment	Durable rubber armor protects with an ergonomic non-slip grip design
		Waterproof (IPX-7 rated for complete water immersion up to 1 meter) and fog-proof performance	Tripod-compatible, includes tethered lens covers, strap, lens cloth, and padded case

SUPPRESSORS

The leading minds in signature reduction combined with battle-proven engineering, testing, and manufacturing.

WELCOME TO THE FUTURE OF SILENCE.

With decades of product design and R&D experience under their belts, SIG SAUER® engineers are developing the next generation of suppressors. At SIG, suppressors are not treated as bolt-on accessories. It is understood that they interact with the gas system of the host firearm and can affect accuracy, reliability, back pressure, and other critical factors. Designing firearms, suppressors, and ammunition as a complete, integrated system maximizes overall performance. The end result is the most advanced, most dependable suppressor technology the world has seen, or heard.

TUBELESS DESIGN

- ▶ The most important material in a SIG suppressor isn't titanium, stainless steel or nickel alloy – it's AIR.
- ▶ More volume within the suppressor translates to lower gas pressure and cooler temperatures.
- ▶ Removal of the outer tube in the rifle suppressor results in a full array of performance improvements.

TAPER-LOK®

- ▶ Revolutionary Taper-Lok Fast-Attach System enables quick and simple muzzle device installation.
- ▶ No more shims.
- ▶ Forward-thinking design optimizes alignment, improving accuracy and greatly reducing point-of-impact (POI) shift, even after multiple install / removal cycles.

MATERIALS

- ▶ Rugged, 100 percent 17-4 stainless steel baffles.
- ▶ Grade 9 Titanium outer tube creates industry-leading durability in a lightweight pistol suppressor package.
- ▶ The first layer of defense, Physical Vapor Deposition (PVD) coating, is chemically superior to other finishes. PVD withstands high temperatures, compared to Cerakote™, which may crack or peel under extreme heat.

Learn more about the complete suppressor line at sigsauer.com/suppressors

SIG SUPPRESSORS

PISTOL SUPPRESSORS

SIG pistol suppressors feature a rugged titanium tube and stainless steel baffles that are fully user serviceable for increased durability, reliability, and accuracy.

SIG SUPPRESSORS

RIFLE SUPPRESSORS

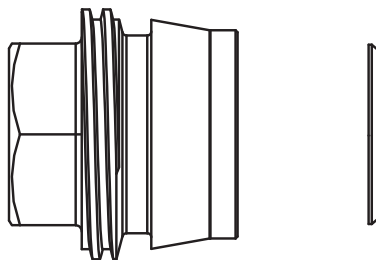

Each suppressor is built in New Hampshire using innovative engineering techniques, cutting-edge manufacturing processes, and superior materials.

ALIGNMENT

TAPER-LOK® MOUNT

- ▶ Innovative tapers self-center the suppressor bore and rifle bore, greatly reducing point-of-impact shift and group dispersion.
- ▶ A larger contact area maximizes retention during repeated firing, requiring about 20% more force to remove than it did to install.
- ▶ Taper-Lok mounts are available in multiple thread pitches and calibers.
- ▶ Backwards compatible with traditional 90-degree shouldered barrels.

MODULARITY

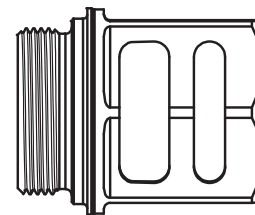

MUZZLE DEVICES

CQB FLASH HIDER

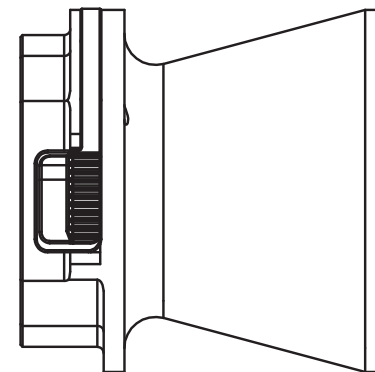

DOUBLE PORT BRAKE

PRECISION PERFORMANCE

QD SUPPRESSOR

- ▶ Locking onto the Taper-Lok mount, QD suppressors feature a secondary retention latch for more secure attachment during fire.
- ▶ Wrench flats allow for easy removal, even with heavy carbon build-up. The wrench will automatically disengage the secondary retention latch with no ratchet teeth to wear out.
- ▶ Sub-caliber mounts are also available for true multi-caliber versatility.

RIFLE SUPPRESSOR MATERIALS	
TITANIUM	GREATER VOLUME, LIGHTWEIGHT, BEST FOR FULL LENGTH BARRELS
INCONEL	FOR HEAVY DUTY USE, BEST FOR SHORT BARREL RIFLES, GREATER DURABILITY

ADVANCED SPORT PELLET™

Engineered by the most elite name in firearms to challenge the airgun industry to a new standard of performance.

Learn more about the ASP Airgun line at sigsauer.com/airguns

SHOOTS LIKE A SIG BECAUSE IT IS ONE™

ADVANCED SPORT PELLET LINE

The most elite name in firearms introduces an entirely new line of advanced pellet-firing platforms with performance up to the exacting standards of SIG SAUER®.

Designed to imitate their counterpart firearm model specs in weight and balance, SIG Advanced Sport Pellet pistols and rifles – together with a full line of accessories and ammunition – deliver more authentic handling for increased, year-round accessibility to practical training. Shoot more. Shoot better. Shoot SIG.

ASP PISTOLS

SEMI-AUTOMATIC AIR PISTOLS

The popular self-defense, centerfire pistols are imitated in ASP from full blowback metal slide to steel rifled barrel with a few built-in performance advantages – low audible profile, practice space versatility and radically less expensive ammunition. The ASP line of pistols allows shooters to train for a quick, accurate response.

ASP RIFLES

SEMI-AUTOMATIC AIR RIFLES

From tactical drills to target practice, the CO₂-powered SIG MCX ASP delivers 30 rounds of rapid-firing, authentic SIG MCX performance and handling for more realistic, economical training and practice – any time, any place. The SIG MPX redefined modern pistol caliber SBRs, and this ASP version does no less for CO₂ rifles. The SIG MPX ASP airgun puts more accurate performance into more accessible practice.

ASP PELLETS

ADVANCED PRECISION, PERFECTED.

SIG ASP lead and lead-free pellets have been engineered to optimize performance from target to competition shooting to hunting with exacting blends of material and design features affecting range, stability and velocity. In very general terms, flat-topped pellets make superior target shooting loads; domed designs boast greater aerodynamics for long-range accuracy; pointed tops increase penetration; and hollow points expand for greater penetration. There's a SIG engineered, high-performance pellet designed to excel in every situation.

ASP CO₂ CYLINDERS

PREMIUM AIRGUN PERFORMANCE

Precision-built SIG ASP pistols and rifles depend on quality ammunition and fuel to perform up to SIG standards. A higher-quality, cleaner gas in a superior-engineered cylinder can influence the lifetime and performance of any airgun. Over time, a poor cylinder seal can mechanically degrade a critical o-ring. Dirty CO₂ can interfere with valves and seals while diminishing velocities – equating to fewer shots per cylinder. Investing in SIG premium cylinders is a simple way to ensure longer-lasting, SIG precision performance.

STANDARD NECK AIR PORTS
FIT MOST AIRGUNS DESIGNED FOR USE WITH 12G OR 90G CO₂ CARTRIDGES

MULTIPLE COUNT PACKAGES

STABLE CONSISTENT POWER OUTPUTS

90g CYLINDER

12g CYLINDER

ASP TARGETS & TRAPS

AIRGUN PRACTICE AND TRAINING TOOLS.

SIG expert training has advanced the skills of many of the world's most elite, tactical shooters. SIG ASP practice tools engage at every level from fundamental skill building to advanced or competitive marksmanship – indoor or outdoor.

Features

SIG EXPERT TRAINING DESIGNS
HEAVY DUTY RUGGED COMPONENTS

ALL-WEATHER DURABLE POWDER COATING
SAFE & SECURE PLACEMENT/MOUNTS

AUTO RESET & KNOCKDOWN TARGETS

Train and compete with 3 levels of expertise using two rings of graduated 1-inch, 1.5-inch and 1/2-inch targets and a knockdown yellow target to reset the competition.

**For use with most airguns over 900 fps*

TEXAS STAR TARGET

Nine center mass targets rotate around a single, central axis using strikes to vary both the gravity-driven speed and direction of the spin for engaging and dynamic practice.

SWIVEL, REFLEX & SPINNER TARGETS

In dual or quad configurations, SWIVEL targets feature SIG logos that flip up when struck until reset with a center mass hit. REFLEX targets share an axis for fast-rotating tests of skill. SPINNER targets add even more speed to the rotation for a challenge.

SHOOTING GALLERIES & TRAPS

Shooting Galleries have center mass targets that magnetically lock down when struck, while used pellets are collected for easy range cleanup. A central SIG logo knockdown target resets the gallery upon impact. Traps come with 25ct paper targets and additional paper target refills available.

*Always use appropriate ear and eye protection making sure that the range has a secure and reliable backstop.

*Recommended for use with lead airgun pellet and lead shot only, not for steel BB use. Power limited to 20 Ft Lbs.

SIG SAUER ACADEMY

No matter what you shoot, we'll make you a better shooter.
Guaranteed.

140 ACRES. 110 COURSES. 100% TRAINING.

From executive protection to active shooter response, from close quarters combat and basic marksmanship to long-range sniper training, the SIG SAUER AcademySM has provided the highest quality firearms and tactics training available anywhere in the United States for more than two decades. Located on over 140 acres in Epping, NH—only an hour from Boston, MA—our facility features state-of-the-art indoor and outdoor ranges, tactical training areas, urban environments, shoot houses, a maritime training area, and a force-on-force village. The SIG SAUER Academy offers a comprehensive arsenal of more than 110 courses for the armed professional and responsible citizen. Whatever your firearm training needs, wherever you need training, and whatever you choose to shoot, we have a solution that will exceed your expectations and make you a better shooter, guaranteed.

The SIG SAUER Academy™ is internationally recognized for the use of superior training techniques and unmatched results. Armed professionals and responsible citizens continuously choose to train at the SIG SAUER Academy for all their firearms, tactical, and related training needs.

WHY TRAIN AT SIG

The SIG SAUER Academy offers the very best self-defense and firearms training available, as well as expert law enforcement training. That's why discriminating individuals and elite government agencies call upon SIG SAUER Academy for their firearms, tactical, and law enforcement training needs. The SIG SAUER Academy is unique; we are not a public shooting range, though more than half of our classes are open to responsible citizens (check the prerequisites or schedule for restrictions). Range use is restricted to scheduled classes, shooting matches, and qualified group leases that meet Academy requirements. Proper credentials are required to take the scheduled classes, and may include either a background check or a current license to carry permit.

THE TEAM

SIG SAUER Academy instructors and support staff have years of experience and are ready to assist you in any way you need during your time at the academy..

FACILITIES

The SIG SAUER Academy offers state of the art indoor and outdoor training facilities. SIG SAUER Academy has continued to develop a variety of ranges and infrastructures including a maritime training area, a tactical training area, multiple shoothouses, the only publicly accessible 1000 yard range in the New England area, and a 360 degree range. Additionally, in 2012 the Academy invested in a brand new home for the SIG SAUER Academy Pro Shop that displays the entire line of SIG SAUER firearms and expanded its coverage of accessories and products with vendors that represent the best of the industry merchandise.

For course descriptions, schedules, and more, visit sigsaueracademy.com

ARMORER CERTIFICATION

The SIG SAUER® factory armorer certification enables the agency armorer or individual user to completely disassemble, inspect, service, and reassemble associated weapons systems without voiding the factory warranty. Proper and routine weapon maintenance and inspection of a firearm are essential to ensure maximum reliability. Factory armorer courses at the SIG SAUER Academy certify agency armorers or individuals to maintain, inspect, service, and repair selected SIG SAUER firearms while preserving the factory warranty. Upon successful completion, armorers will fully understand each firearm and be factory-certified for a period of three years.

SHOOTING DEVELOPMENT

From the first-time shooter to the range veteran, our progressive shooting development courses offer a logical shooting evolution designed to build a complete shooter. Pistol, rifle, and shotgun courses are taught in basic, intermediate, and advanced levels that follow a simple and easily reproducible experience utilizing best practices. Breaking from traditional firearms training concepts, the SIG SAUER Academy uses a unique, simplified method of adult learning behavior to achieve near instant positive results.

INSTRUCTOR DEVELOPMENT

The SIG SAUER Academy takes special care in preparing knowledgeable men and women to become effective firearms instructors for students of all levels. It takes more than subject mastery to be a good instructor. We focus on teaching proven techniques that successfully transfer essential skills and knowledge from instructor to student in less time. Instructor candidates practice teaching techniques acquired with each other and are rigorously evaluated for classroom and range skills mastery.

SPECIALTY TRAINING

Each specialty course has a specific objective outside the scope of standard firearms training. These courses focus on a specialty discipline or scenario and incorporate training methods designed to achieve nothing short of success. Students will be confronted with unfamiliar and uncomfortable situations in order to familiarize themselves with such eventualities and learn to prevail.

SIG PISTOL ACCESSORIES

RIMFIRE 22 CONVERSION KITS

Convert a centerfire SIG pistol to rimfire for economic practice, training, and plinking.

- ▶ Features Complete Slide Assembly with Black Hard-Coat Anodized Finish and Adjustable Contrast Sights (Threaded Barrel with ½ x 28 TPI Classic Models)
- ▶ P938®, Both Standard and Threaded Barrel Kits Available
- ▶ Comes in a Hard Carry Case with (1) Magazine

CONVERSION KIT:

CLASSIC
P938

MODELS:

P220 P226 P229R
P938 P938 Target Models

CENTERFIRE X-CHANGE KITS

Switch between centerfire calibers for different situations and needs.

- ▶ Converts .22LR Pistols to Standard Centerfire Calibers (P220®, P226®, P229®)
- ▶ Convert to Other Centerfire Calibers by Replacing the Barrel/Slide Assembly, and Magazine (P220, P226, P229)
- ▶ Features Slide with Nitron Finish, SIGLITE® Night Sights
- ▶ Comes in a Hard Carry Case with (1) Magazine

THREADED BARRELS

- ▶ Thread Pitch of 13.5x1 LH
- ▶ Includes Thread Protector

CALIBER:

.22LR
9mm
.45ACP

MODELS:

P220 P226 P229 P938
P226 P229 P320 P250* SP2022 P938 P225*-A1
P220 P226 P229 1911 1911 Carry P227

P320® GRIP MODULES

- ▶ Ergonomic Grip Design
- ▶ Full-Size, Carry, Compact, and Subcompact
- ▶ Full-Size, Carry, and Compact Available in Small, Medium, and Large Grip Circumference
- ▶ Subcompact Available in Small or Medium Grip Circumference with Rail

MAGAZINES

- ▶ Magazines Specifically Designed for SIG SAUER® Pistols and Rifles
- ▶ Select from a Variety of Firearm/Caliber/Capacity Combinations

PISTOL BAG

- ▶ Padded Interior with Internal Zipped Compartment
- ▶ Elastic Magazine Retention Holds up to (5) Pistol Magazines
- ▶ Durable 500D Nylon
- ▶ Available in Black or OD Green

RANGE BAG

- ▶ Rugged 600D Cordura Material
- ▶ Five External Pockets
- ▶ Detachable Shoulder Strap
- ▶ YKK Zippers
- ▶ Internal Molle Attachments
- ▶ 10" High, 15" Long, 12" Wide

BLACK POINT TACTICAL IWB/DWB HOLSTER

- ▶ Made From Kydex™ and Leather
- ▶ Fits Most Full-Size and Models
- ▶ Sleek Profile Minimizes Printing and Improves Carry Comfort
- ▶ Available in Right and Left

P238®/P938® DESANTIS® POCKET HOLSTER

- ▶ Ambidextrous Design
- ▶ Fits P238 and P938 Models without Laser
- ▶ Pocket holster that breaks up the outline of the gun
- ▶ Slick pack cloth for a no-friction draw

ROTO PADDLE HOLSTER

- ▶ Secure Level 2 Retention with Fast Push-Button Release
- ▶ Adaptable to Paddle, Belt Loops or MOLLE Attachment
- ▶ Adjustable for Tension and Cant
- ▶ Contoured Paddle Fits Comfortably on Waist Band
- ▶ Available with Integrated Mag Pouch

SIG SAUER / DESANTIS® GUNHIDE NYLON ANKLE HOLSTER

- ▶ Available in right or left handed
- ▶ Nylon ankle wrap with adjustable velcro thumb strap
- ▶ Sheepskin lined for comfort

P320 SERIES UTM PISTOL CONVERSION KITS

- ▶ Easy to Install
- ▶ Fits P320 Full-Size, Compact, Carry in 9mm, and .40S&W
- ▶ Simple Exchange of Slide and Barrel, or Slide Assembly
- ▶ Feel and Function of "Live" Ammunition
- ▶ Unique Chamber Profile That will not allow "Live/Lethal" Ammunition to Completely Chamber
- ▶ Great for Law Enforcement and Military Communities
- ▶ Also Available for the Following SIG SAUER Models: P226, P228/P229, SP2022

UTM PISTOL TRAINING AMMUNITION

- ▶ 9mm Battlefield Blank Round Emits a Realistic Noise and Cycles the Weapon Consistent to live
- ▶ 9mm Silent Blank Round Cycles the Weapon Consistent to Live Without Sound Emission from the Muzzle
- ▶ 9mm Man Marker Round is an Accurate and Reliable Marking Projectile for Force-on-Force or Force-on-Target Training
- ▶ U.S. EPA compliant Landfill Safe, Low Emission and is Available in Non-Toxic Options.

UTM SILENT BLANK ROUND

UTM BATTLEFIELD BLANK ROUND

SIG RIFLE ACCESSORIES

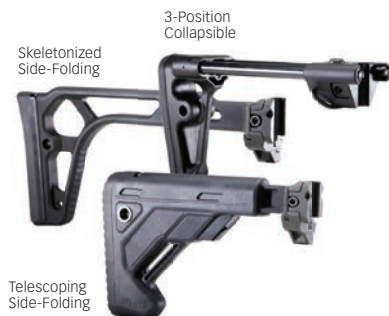

SIG MCX® AR UPGRADE KIT

- ▶ Convert Mil-Spec™ AR Lower Receiver to SIG MCX System
- ▶ Complete SIG MCX Upper Receiver Assembly
- ▶ Side-Folding Skeletonized Stock
- ▶ Lower Receiver Stock Adapter

SIG MCX & SIG MPX® STOCKS

- ▶ Skeletonized Side-Folding
- ▶ Telescoping Side-Folding
- ▶ 2-Position Collapsible, 2 Rod
- ▶ Side-Folding M4 Stock with MIL-SPEC Tube
- ▶ Side-Folding Pistol Brace (SB15 & SBX)

LOCKING FLIP-UP SIGHTS

- ▶ New Low-Profile, Steel Design
- ▶ Front Sight Adjustable for Elevation with Standard Sight Adjustment Tools
- ▶ Dual Aperture Rear Sight Adjustable for Windage
- ▶ Positive Push Button Locking Mechanism
- ▶ M1913 Compatible

SIG MCX CALIBER CONVERSION KIT 5.56NATO | 300BLK

- ▶ 16- and 14.5-inch Barrels (All Calibers)
- ▶ 11.5-inch Barrel (5.56NATO)
- ▶ 9- and 6.75-inch Barrels (300BLK)
- ▶ Kit Includes Barrel Assembly and Bolt

SIG MPX CALIBER CONVERSION KIT 9mm

- ▶ 4.5-, 6.5-, 8- and 16-inch Barrel
- ▶ Kit Includes Barrel Assembly and Bolt

DEPLOYMENT BAG

- ▶ Professional Grade 1000D Nylon
- ▶ Main Compartment Compatible with SIG MPX® and SIG MCX® (Pistol/SBR)
- ▶ Front Compartment Ideal for Triple Mag Pouch and Magazines
- ▶ Side-Front Compartment will Hold Full-Size Pistol
- ▶ Rear Compartment will Hold Large SAPI Plate
- ▶ Available in Black/Grey and Coyote

RIFLE BAG

- ▶ Made of Rugged Ballistic Nylon with the SIG Mark Logo on the Center Pocket Panel
- ▶ Protects Two Rifles During Transport and Storage
- ▶ Padded Backpack Straps
- ▶ Available in 36" Black

SIG MPX® MAGAZINES

- ▶ Available in 10, 20, 30 Rounds
- ▶ Translucent Polymer with Steel Feed Lips
- Exclusively Sold by SIG SAUER, Inc.*

PHASE 5 PSB PISTOL STABILIZING BRACE KIT

- ▶ Brace Dramatically Improves the Single-Handed Performance of AR-Style Pistols
- ▶ Improves Pistol Aesthetics
- ▶ Fits all Pistols Equipped with an AR-Style Pistol Buffer Tube
- ▶ Includes Phase 5 Hex Tube (Designed Specifically for Brace), Locking Nut, Buffer, and Action Spring
- ▶ (2) Adjustable Nylon Stabilizing Straps
- ▶ Available in Black or FDE
- ▶ Available with or without Pistol Receiver Extension
- ▶ ATF-Compliant
- ▶ U.S. Veteran-designed
- ▶ Made in the U.S.A.

SIG MCX SERIES UTM RIFLE CONVERSION KITS

- ▶ Easy to Install
- ▶ Simple Exchange of the Bolt and Carrier Assembly
- ▶ Feel and Function of "Live" Ammunition
- ▶ Offset Firing Pin design Strikes Outside of "Live/Lethal" Ammunition Primer Pocket for Added Safety while Using UTM Ammunition
- ▶ Includes Bolt Carrier and Blue Training Magazine
- ▶ Great for Law Enforcement and Military Communities
- ▶ Also Available for the Following SIG SAUER Rifles:
SIG 551/552/553/516 Series

UTM RIFLE TRAINING AMMUNITION

- ▶ 5.56mm Battlefield Blank Round Emits a Realistic Noise that Cycles the Weapon with Realistic and Consistent Cyclic Rates in both Semi-Automatic and Fully-Automatic
- ▶ 5.56mm Target Bullet Round is Intended for use as a Training Round in Shorter Range Situations Such as Shoot Houses
- ▶ 5.56mm Silent Blank Round Cycles the Weapon Consistent to Live in both Semi-Automatic and Fully-Automatic, Without Sound Emission from the Muzzle.
- ▶ 5.56mm Man Marker Round is an Accurate and Reliable Marking Projectile for Force-on-Force or Force-on-Target Training
- ▶ U.S. EPA compliant Landfill Safe, Low Emission and is Available in Non-Toxic Options.
