In our state-of-the-art facilities across eight locations worldwide SIG SAUER® manufactures the finest firearms, electro-optics, ammunition, suppressors, and airguns, while also offering world-class firearms and tactical training at the SIG SAUER Academy℠.

At SIG SAUER we are driven by our relentless pursuit to manufacture products of unparalleled quality, an unwillingness to compromise, and an absolute refusal to settle. We are emboldened by our love of freedom and share the same passion and pride for our country as those who choose the SIG SAUER brand.

Regardless of whether a SIG SAUER product is being deployed on the battlefield by a soldier, protecting law enforcement as an official duty sidearm, or simply the product of choice of a private citizen, you can trust that if it carries the SIG SAUER name it is built to our precise exacting standards, and undergoes the same rigorous quality controls to ensure that it performs when it matters most.

THE EVOLUTION OF SIG SAUER®

From Wagons to Worldwide Leader

When business entrepreneurs Friedrich Peyer Im Hof, Heinrich Moser, and Conrad Neher opened a wagon factory near the Rhine Falls in Switzerland in 1853, they laid the foundation for what would become the international leader in the small arms industry. Just seven years after constructing an industrial plant for building their wagons and railway cars, the three ambitious owners undertook a new venture responding to a challenge from Switzerland's Federal Ministry of Defense to develop a state-of-the-art rifle in hopes that the Swiss Army would adopt it.

Four years later, the trio found themselves facing an order for 30,000 of their rifles, and changed the name of their company to Swiss Industrial Group. The name was later shortened to SIG as they officially became one of the world's premier firearms manufacturers.

In the 1970's, the SIG small arms division expanded within Europe to include Hammerli Target Arms of Switzerland, and the legendary J.P. Sauer & Sohn, GmbH of Germany – one of Europe's oldest and most prestigious firearms manufacturers.

In the 1980's, SIG set its sights on the United States of America and opened its first American location in Virginia under the name SIGARMS®, and began importing and assembling the company's classic handguns.

In the 1990's, SIGARMS expanded its United States footprint by opening new manufacturing facilities in Exeter, New Hampshire where it would continue to expand to include the world-class SIGARMS training academy in Epping, New Hampshire.

In 2007, SIGARMS officially changed its name to SIG SAUER, aligning the company under a single global brand. Since then SIG SAUER has experienced unprecedented growth and expanded its New Hampshire footprint to include a 206,000 sq./ft. corporate headquarters and advanced manufacturing facility at Pease International Tradeport. SIG SAUER continually invests in workforce development by hiring the foremost industry experts in ever expanding categories to ensure that all SIG SAUER products exceed the quality expectations that are synonymous with the brand.

Today, the SIG SAUER product lineup goes well beyond firearms to include a broad array of products such as electro-optics, ammunition, suppressors, and airguns, all designed, engineered, and manufactured to the same exacting standards of quality, reliability, and performance that have made SIG SAUER the brand of choice for the military, special forces, law enforcement, and civilians across the globe. In addition, SIG SAUER has expanded its U.S operations with a dedicated optics facility in Oregon and a purpose-built ammunition plant in Arkansas.

SIG SAUER has evolved because we continually compete against ourselves, because we believe our greatest success has yet to be engineered, and we are driven by the knowledge that our customers can't afford to settle so they trust we never will. SIG SAUER. Never Settle.

SIG SAUER™

U.S.DEFENSE CONTRACTS

U.S. Military (All Branches) M17*/M18*

After one of the most rigorous and highly competitive selection processes in the history of small arms, the SIG SAUER® P320® based M17 and M18 were awarded the Modular Handgun System (MHS) contract by the U.S. Army. The M17 and M18 have now been adopted by all branches of the U.S. Military.

U.S. Army Next Generation Squad Weapons (NGSW) Program

SIG SAUER has been selected by the U.S. Army to develop the Next Generation of squad-based weapon systems, including a lightweight machine gun, a carbine rifle, a next generation of suppressor and the first-of-its-kind hybrid ammunition.

U.S. Army Contracting Command .300 Win Mag Ammunition

SIG SAUER Ammunition, known for quality and accuracy, was selected by the U.S. Army to manufacture the Mk 248 MOD 1 and MOD 0 300 Win Mag ammunition for use in U.S. Military Sniper Platforms.

DOD Suppressed Upper Receiver Group MCX™ (SURG)

The SIG SAUER MCX system was selected to upgrade the existing M4A1 U.S. Special Operations Forces carbines and optimize their weapons for continuous suppressed use on the battlefield.

U.S. Army/DOD/U.S. Air Force TANGO6T SDMR

SIG SAUER Electro-Optics TANGO6T 1-6x24 riflescopes have been selected by both the U.S. Army for their Squad Designated Marksman (SDMR) program as well as U.S. Special Operations Forces for their Squad Variable Powered Scope (SVPS) program. In addition, the U.S. Air Force has selected the TANGO6T for its marksman rifle platforms.

Department of Homeland Security (DHS) P320

After a rigorous selection process the SIG SAUER P320 pistol was chosen as the official duty pistol for DHS Immigration and Customs Enforcement (ICE).

U.S. Coast Guard PROFORCE® P229

SIG AIR* was chosen to supply the U.S. Coast Guard with the SIG AIR PROFORCE P229* airsoft pistol as an official training pistol for Cadets and Guardsmen.

INDUSTRY AND CONSUMER AWARDS

SIG SAUER® is proud to be honored by our peers and have our products recognized for innovation, quality, and capability.

2019 NRA GOLDEN BULLSEYE AWARD

Given to the "best-of-the-best" in new guns, optics, gear, and accessories.

Editors Choice: P320 XFIVE LEGION
Editors Choice: Elite Hunter Tipped Ammunition

SIG SAUER
NEVER SETTLE

PISTOLS

PISTOLS

Choose from a full array of sizes, triggers, calibers, finishes, and features—all with unfailing SIG reliability and accuracy.

INSPIRED BY THE ELITE PROFESSIONAL. CARRIED BY ALL WHO DEMAND THE BEST.

Unless it's a SIG, a handgun is just a handgun. Engineered to perform anywhere, at any time, and under any circumstance, SIG pistols boast unique, advanced features that stand out amongst the rest. Key features include:

X-RAY3™ Sights

Integral Accessory Rail

4-Point Safety System

Nitron™ Stainless Steel Slide

SAS® (SIG ANTI-SNAG)

Threaded Barrel

Rear Sight Plate

ROMEO1 PRO™ Reflex Sight

SIZING UP YOUR SITUATION

You want a pistol with frame dimensions directly suited to your needs. Whether you'll be sliding your handgun into a range bag, concealing it in a purse, shooting competitively, or defending your home, SIG SAUER® offers a pistol for every shooter.

FULL-SIZE

When shootability and sighted accuracy are a must. Generous dimensions and even weight distribution help to deliver a more accurate sight picture and reduced felt recoil.

Barrel > 4" Frame > 7.5 x 5.5"

CARRY

A balance of shootability with concealment. A full-size grip allows the shooter more control while reduced slide length offers lighter carry.

Barrel < 4" Frame 7 x 5.5"

COMPACT

If concealment is an essential requirement, the reduced slide length and grip height enable easy concealment and carry, with ergonomics designed to promote point-and-shoot accuracy.

Barrel < 4" Frame ~7 x 5"

MICRO-COMPACT

Discreet, lightweight, and able to fit almost anywhere. Often called "pocket pistols," the SIG micro-compact delivers the ultimate in concealment.

Barrel < 3.5" Frame < 5.8 x 4.3"

TRIGGER TIME

Any expert will tell you, it's the trigger that ultimately puts rounds on target. Weigh the pros and cons of each trigger carefully to select the one you can fire accurately, and carry with confidence.

STRIKER-FIRED TRIGGER

STR | Short Tactile Reset

Every trigger pull has the same weight and feel with a quick tactile reset to ensure faster and more consistent shots.

HAMMER-FIRED TRIGGER

DA/SA | Double-Action/Single-Action

The first trigger pull performs the double-action of cocking the hammer and then releasing the sear. Followed by lighter, single-action trigger pulls on all subsequent shots. The heavier first trigger pull acts to reduce inadvertent discharges.

SAO | Single-Action-Only

The trigger performs the single-action of releasing the hammer with a consistent trigger pull that is generally regarded as the shortest, lightest, and smoothest available. The slide can still be operated with the safety engaged (a SIG exclusive on P220, P226, P229, P238, and P938 models). All models feature a manual thumb safety.

THE CALIBER DEBATE

Popular opinions vary widely, but only you can select the right caliber for you. Consider bullet weight and velocity, your desired magazine capacity, ammunition cost, and availability.

.45AUTO
Known for a combination of power and controlled penetration, due to a large diameter bullet and moderate velocities.

10MM
Offers higher velocity, greater range, and more kinetic energy than the .45AUTO.

.40S&W
Designed to match the performance of the FBI's reduced-velocity 10mm in a smaller cartridge size while offering an energy advantage over the 9mm.

.357SIG
Developed in 1994 to duplicate the performance of a 125 gr .357 Magnum cartridge. The .357SIG combines relatively high velocity with remarkably flat trajectory.

9MM
Regarded as the world's most popular and widely used handgun cartridge combining a flat trajectory with relatively low felt recoil.

.380ACP
Compact and light design make it popular in handguns designed for concealed carry. Less powerful than larger calibers minimizing recoil and improving controllability.

RED DOT REVOLUTION

As the only manufacturer in the industry that can truly integrate a firearm and an optic into a single system that's ready to shoot, right out of the box, SIG SAUER® is leading a Red Dot Revolution that transform the way you shoot. SIG SAUER now offers virtually all of our most popular pistols with the option of a factory-installed, and zeroed, reflex optic. Greater performance, increased accuracy, and radically simple – welcome to the Red Dot Revolution.

WHY PISTOL MOUNTED OPTICS?

Designed for fast, responsive target acquisition and accuracy, open reflex red dot sights, or pistol-mounted optics, are quickly becoming popular among experienced and novice shooters. Red dot sights allow you to quickly and easily acquire your sight picture and make follow-up shots faster. The inherent simplicity of a single aiming point on the same visual plane as the target, makes red dots extremely easy to use, simply put the dot on the target, and press the trigger.

P365®

MICROCOMPACT SIZE WITH FULL-SIZE CAPACITY

The award-winning P365 has redefined the micro-compact pistol category, quickly becoming one of the most coveted firearms in the industry. The P365 features a patented modified double-stack magazine capable of 10+1, 12+1 or 15+1 full-size capacity. It's ergonomic design makes it more shootable than the typical pocket-sized pistols with a clean, crisp trigger pull you expect from a SIG SAUER®. The P365XL™ ROMEOZero™ is available with the ROMEOZero reflex optic installed and zeroed right out Wof the box, making it the most capable micro-compact available today.

LEGION SERIES

LEGION

LEGION SERIES

For thousands of years, one symbol has been a rallying cry for the world's most revered warriors. And for decades, one brand of firearms has served more elite fighting forces than any other.

WELCOME TO THE LEGION BY SIG SAUER® Painstakingly engineered and enhanced for the discerning few with the same warrior spirit that inspired it. We have always given professionals what they need. Now, we are giving them what they want.

LEGION SERIES

UNLEASH THE WARRIOR SPIRIT.

The SIG P220®, P226®, P229®, P320®, P938®; five of the most highly regarded firearms in the professional community are receiving the LEGION Series enhancements based on the needs and wants of elite users. For those who demand the best, we now have something even better — welcome to the LEGION.

LEGION **ENHANCEMENTS**

1 | **LEGION Gray Finish**
Enhances durability & lubricity

2 | **Solid Steel Guide Rod**
Reduces muzzle flip

3 | **Checkering Under Trigger Guard**
Minimizes lateral movement

4 | **X5 Undercut**
Accommodates high grip techniques

5 | **Grayguns Inc. Designed Trigger**
Adjustable for over-travel

6 | **Reduced Profile Controls**
Prevents premature activation of slide stop with improved texture for better control

7 | **Three Magazines**
Delivers more value

8 | **Elite Beavertail Reduction**
Reduces printing when concealed

9 | **Enhanced Polished Action with SRT**
Smoother DA trigger press that enables faster follow-up shots

10 | **Front Cocking Serrations**
For easy slide operation

11 | **Custom G10 Grips**
Provides enhanced control for high grip techniques

12 | **X-RAY3™ Sights**
Optimizes sight acquisition in all lighting conditions

13 | **Enhanced Front Strap Checkering**
Provides a more secure grip for better control

14 | **Extended Magwell**
Provides a larger flared opening for faster reloading

15 | **Flat Aluminum Trigger**
Increased mechanical advantage for a lighter trigger pull

ONE MILLIONTH P320®

The SIG SAUER P320 is fast becoming one of the most iconic and historic guns in history, and because of its immense popularity it has been tested, proven, and chosen at unprecedented rates by consumers and professionals alike. As the only truly modular handgun in the world, it was born from hard work, drive, dedication, and was subsequently adopted by all branches of the U.S. Military as the M17 and M18, and is now in service with law enforcement, military and special forces around the world. The P320 has also taken over the world of competition, as some of the greatest professional shooters in the sport have won championships and set world records using P320s.

In 2019, the SIG SAUER P320 reached a historic milestone when serial number 58H1000000 was born and thus the one millionth P320. To celebrate the innovation that is the SIG SAUER P320, the standard bearer of the modern-day pistol, SIG SAUER Custom Works has created a one-of-a-kind milestone P320.

The SIG SAUER P320

Tested to ensure extreme reliability and durability.
Proven to deliver unprecedented accuracy.
Chosen by the all branches of the US military and the world's most demanding users.

Hand-cut granite grips to commemorate New Hampshire, the Granite State as the birthplace of the P320 pistol, and printed with the "SIG" mark logo.

Marked "58H1000000" for the 1,000,000th P320 Pistol

ONE MILLIONTH P320

FEATURES

- Frame: An all-metal frame with a high-gloss polished finish
- Slide Engraving: Scroll engraving with 14k gold inlay, and "1,000,000th P320"
- The 1,000,000th P320 is a 9mm pistol with standard P320 features including XRAY-3 day/night sights and an optic cut.

SIG CUSTOM WORKS

ELITE MATCH

PRECISION MATCH GRADE RIFLE CARTRIDGES

SIG Match Grade rifle rounds are engineered to excel in today's precision auto-loading platforms, as well as bolt-action rifles. Utilizing optimized shell case metallurgy and premium primers, each round is precision-loaded using state-of-the-art, electromechanical monitoring for geometric conformity, and all are 100% inspected.

FEATURES

1. Hollow Point Designed to Maximize BC
2. Thin Jacket Design for Precise Concentricity
3. Bullet Weights are Held within +/- 0.3 Grains
4. Temperature-Stable Propellants
5. Brass Cases are 100% Inspected and Lot Controlled

MATCH ELITE

COMPETITIVE PISTOL CARTRIDGES

SIG Match Elite Competition loads have been designed in conjuction with Team SIG, for the serious competitive shooter who needs an accurate and completely reliable competitive round. Currently offered in a 9mm, 147 grain w* projectile and loaded in a premium nickel case for improved function and feeding. The round utilizes a reduced charge weight with a fast burning powder, so felt recoil has been reduced significantly for improved accuracy, better gun control, and higher scores.

*When measured from Max Michel's target pistol

FEATURES

1. V-Shaped Jacket with Skives and Scores to Provide Controlled, Uniform Expansion
2. Stacked Hollow Point Bullet Design with Additional Hollow Point Cavity
3. Unique Toothed Cannelure Ensures Maximum Weight Retention and Terminal Expansion
4. Coated Nickel Cases Provide Enhanced Lubricity, Superior Corrosion Resistance, and Reliable Feeding and Extraction
5. Low Flash Propellant
6. Consistent Primers

ELITE HUNTER

TIPPED LEAD CORE HUNTING CARTRIDGES

SIG SAUER® ELITE HUNTER TIPPED ammunition gives the serious sportsman unmatched, long-range accuracy, with devastating on-target performance. Massive expansion delivers instant knockdown and terminal energy on small to medium game.

FEATURES

1. Translucent yellow tip increases ballistic coefficient, improves terminal performance, and aids in consistent reliable chambering
2. Exclusive jacket design delivers devastating on-game performance for small to medium game at extended ranges
3. Concentric blackened jacket ensures reliable expansion
4. Enhanced boat tail design provides superior flight characteristics over a wide range of velocities
5. Custom formulated and precision loaded powders deliver consistent velocities regardless of atmospheric conditions
6. Nickel plated cases aid in extraction while providing significant anti-corrosion qualities
7. Industry leading primers are matched to proprietary powder blends to ensure dependable ignition

ELITE HUNTING

COPPER GAME HUNTING CARTRIDGES

SIG ELITE COPPER HUNTING rounds use premium-quality powders and primers for minimum velocity variation, and yield a 1.8x diameter expansion. Perfected for easy rifle feeding, with an optimized nose geometry, and premium nickel-plated shell casings that deliver consistently reliable accuracy for taking down game.

FEATURES

1. Optimized Nose Geometry for Easy Rifle Feeding
2. Consistent 1.8X Diameter Expansion
3. Lead-Free Monolithic Copper Bullet
4. Proprietary Powder Blends to Ensure Dependable Ignition
5. Industry Leading Primers are Matched to Proprietary Powder Blends to Ensure Dependable Ignition

ELITE HUNTING

TIPPED VARMINT & PREDATOR RIFLE CARTRIDGES

SIG Tipped Varmint & Predator rounds utilize yellow tipped projectiles designed specifically for explosive expansion and unmatched accuracy. All loads feature projectiles yielding higher muzzle velocities and flatter trajectories across all practical hunting distances.

The Tipped Varmint & Predator rounds contain the same high-quality single-base extruded powders as SIG Match Grade rounds. This ensures consistent round-to-round muzzle velocities and renders it insensitive to temperature change. All SIG Varmint & Predator rounds are produced on state-of-the-art loading equipment utilizing laser technology for charge-weight consistency and geometric conformity.

FEATURES

1. Yellow Tip Increases Ballistic Coefficient, Improves Terminal Performance, and Aids in Consistent Reliable Chambering
2. Jacketed Lead-Core Bullet Designed for Explosive Fragmentation and Quick Take-Down on Varmits
3. Custom Formulated and Precision Loaded Powders Deliver Consistent Velocities Regardless of Atmospheric Conditions
4. Brass Cases Aid in Extraction while Providing Significant Anti-Corrosion Qualities
5. Industry Leading Primers are Matched to Proprietary Powder Blends to Ensure Dependable Ignition

COMPONENTS

BAGGED BRASS / PRIMED BAGGED BRASS

Elite Performance Ammunition shell cases are engineered to exacting tolerances and available for multiple pistol and rifle calibers. The geometric consistency of these premium brass cases ensures each primer is held tightly in its pocket. Flash holes are precise with no burrs and the superior metallurgical properties of the SIG SAUER® cases enable repeated reloading. All Elite Performance rifle shell cases are induction annealed for consistent bullet retention.

THE BEST RELOADING BRASS MANUFACTURED IN THE U.S.A.

- Fully Transferable

ELECTRONIC AND TRITIUM LIMITED 5-YEAR WARRANTY

Covers any defects in materials and workmanship in the electronic and tritium components of illuminated riflescopes/sights, pistol sights, electronic sights, flashlights, lasers, binoculars, spotting scopes, and rangefinders for five years from the date of manufacture.

EMBEDDED APPLIED BALLISTICS®

ABU Applied Ballistics Ultralight

Applied Ballistics Ultralight is the streamlined ballistic calculator developed with Applied Ballistics and integrated into all BDX products. Ballistic solutions are provided out to a maximum of 800 yards.

ABX Applied Ballistics External

Applied Ballistics external allows external devices such as Kestrel® to compute Applied Ballistics Elite solutions and communicate the firing solution back to select BDX enabled devices.

ABS Applied Ballistics System

Applied Ballistics System embeds Applied Ballistics Elite on-board select products with integral environmental sensors to calculate complete ballistic solutions out to the effective range of any firearm.

SBT® SIG Ballistic Turret

A Custom, Laser-Etched Elevation Dial on Most SIG SAUER® TANGO® and WHISKEY® Riflescopes

Matched to the Ballistics of the Shooter's System at no Extra Cost

Inputs Bullet Specifications, Ballistic Coefficient, Muzzle Velocity, Elevation, and Other Environmental Factors

Allows for Correct Bullet Drop Compensation and Pinpoint Accuracy at Any Range

LOCKDOWN® Zero System

Zero Stop-Locking Turret Allows a Rapid Return to Zero

Eliminates Concern About How Far to Turn the Elevation Dial to Return to Zero

STEALTH ID™

Deflection Armor Trapezoidal Surfacing Breaks Up the Shape and Visibility of the Optic

Slide Serrations and Grip Checkering Add Function to the Form of all SIG SAUER Electro-Optics

HELLFIRE® Reticle

Electronically Illuminated Utilizing an Advanced Fiber Optic Technology

Varies the Light Intensity of the Central Aiming Point from Night Vision Compatible to HellFire Bright for Daylight Illumination

Results In a Bright, Defined Aiming Point for Precision Shot placement in any condition

LEVELPLEX™ Digital Anti-Cant System

Utilizes an Integrated Digital Level that is Accurate to +/- 0.5° Available in any WHISKEY5 or TANGO6 with a side focus

Auto Levelplex Mode Calibrates Level Sensitivity to Distance Ranged to Target

MEGAVIEW™

Provides Massive Field of View (FOV), Allowing Faster Target Acquisition

Enhances Awareness of Objects in the Shooter's Periphery

ALT™ Aspheric Lens Technology

Eliminates Aberration, Reduces Weight, and Helps to Focus the Projected Image Through the Lenses

Superior Low Distortion Optical Performance

SPECTRACOAT™

Highly Efficient, Ultra-Wide Broadband, Anti-Reflection Lens Coatings

Reduces Surface Reflections to Extremely Low Levels Across the Entire Visible Spectrum

Provides Superior Light Transmission

HDX® High Definition Transmittance

Comprises Both High Definition (HD) and High Transmittance (HT) Glass

Ultra-High Resolution, Optical Performance, and Light Transmission

LENSARMOR™

Abrasion-Resistant Lens Coatings

Extreme Durability Ensures the Lenses on the Scope Will Stay Sharp, Bright, and Clear

LENSHIELD™

Mil-Spec Oleophobic Coating

Sheds Water, Oil, and Gunk, to Ensure a Clean Sight Image at All Times

MOTAC™ Moton Activated Illumination

Motion-Sensing Technology

Powers Up Illumination When Sensing Motion, and Powers Down When it Does Not, Extending Battery Life

SOLAR POWERED ILLUMINATION

Powered By a Solar Cell

Extends Runtime and Improves Daylight Brightness of the Reticle With or Without a Battery

TRUHOLD™

Lockless Zeroing System

Utilizes Quad Adjustment Springs Designed and Torture-Tested to Endure Handgun Recoil and Return to Zero Shot After Shot

OIS™ Optical Image Stabilization

Proprietary SIG Optical Image Stabilizer System

Gyroscopically Stabilized to Cancel Out Unwanted Shaking and Vibrations that Can Blur an Image, Especially at Higher Magnification Levels

AMR™ Angle-Modified Range

Ranging Technology Using an On-Board Inclinometer

Reads Incline / Decline Angle and Modifies the Effective Ballistic Shooting Range to The Target

Equivalent Horizontal Range, that Integrates Perfectly When Used with SIG Ballistic Turret Dials

LIGHTWAVE DSP™ Digital Signal Processing

Leverages HyperScan, and Advanced Power Management Technique, Providing the Fastest Refresh Rate in Scan Mode (4 times Per Second)

Uses the Latest Generation Field Programmable Gate Array (FPGA)

Reduces false positives while finding weak or distant targets

HYPERSCAN™

Features the Fastest, most Accurate Range Acquisition Algorithms by Analyzing Targets 4 Times Per Second and Displaying the Results on Stationary or Moving Targets within a Quarter of a Second.

LUMATIC DISPLAY™

Proprietary OLED (Organic Light Emitting Diode) Display Ambient Light Sensor Continuously Monitors Light Conditions and Adjusts the Display Brightness Accordingly

No other Display Offers this Adaptive Ability to Prevent the Shooter's Pupil from Constricting in Low-Light Conditions

90⁰ POWERCAM™ **MOUNT**

Quick Flip Away Mount for Fast Transitions from Near to Far Distance Targets

No Button Actuator for Rapid Single-Handed Operation Point for Precision Shot Placement in Any Condition

KinETHIC™ Kinetic Energy Indicator

KinETHIC Kinetic Energy Indicator

Allows a Hunter to set a Threshold in Either ft-lbs or fps for the Ethical Harvest of Game Animals. BDX will Compute Distance Ranged and Indicate when you Drop Below the user-set Threshold for Energy or Speed of Bullet on Target

BDX 2.0™

Software Update that Includes a New Easy Mode for Quick BDX Setup Out of the Box, Including:

BDX kits Come Paired and Bonded

BDX QuickBond™ System Gives Users the Ability to Bond Two BDX Enabled Devices without the Smartphone App

BDX Equipped KILO® Rangefinders Preloaded with Ballistic Groups for Centerfire Rifles, Muzzleloaders, and Crossbows

100% Compatible with BDX Smartphone App to Access the Advanced BDX Features in Configuration Options

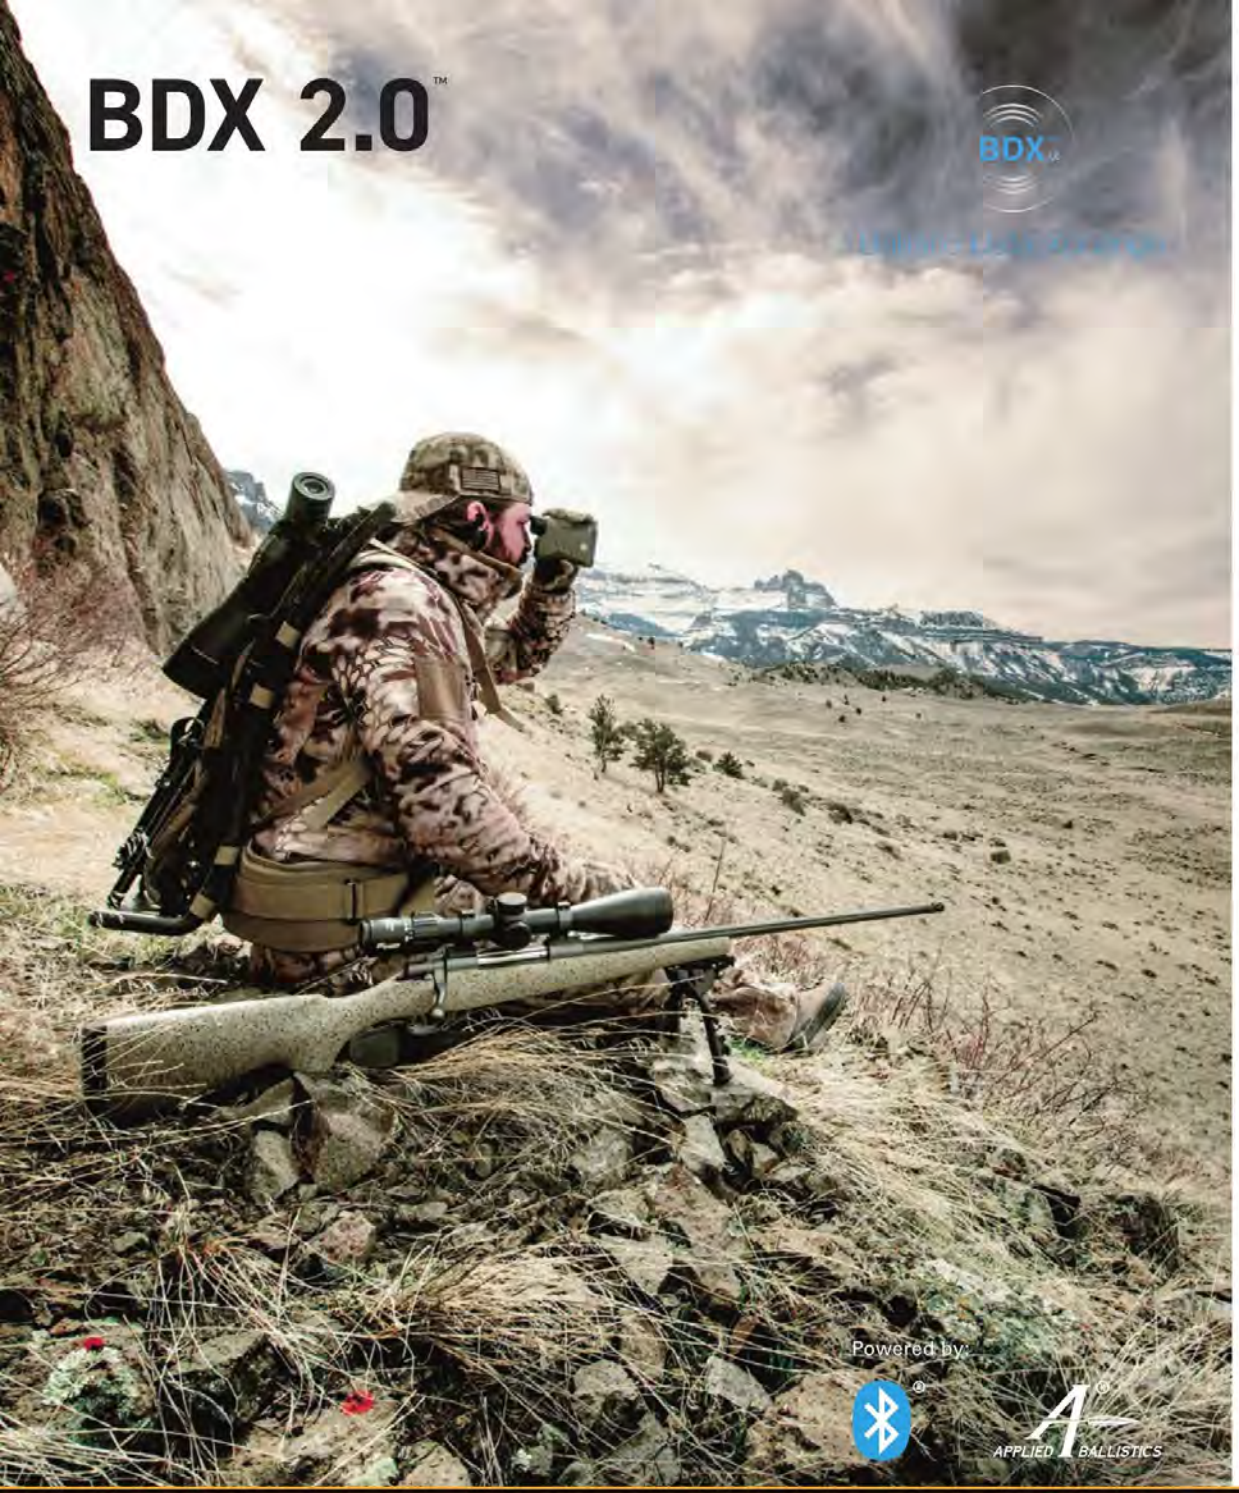

WGP™ Weapons Grade Polymer

Optimized for use with Polymer Pistols

Lightweight Textured Polymer

BDX 2.0™

WHAT IS BDX?

SIG SAUER® has built on the success of BDX, adding features and benefits that allow hunters and shooters to 'hit the ground running' with their BDX systems. All BDX rangefinders now come preprogrammed with 9 ballistic profiles that cover most centerfire rifle cartridges, as well as crossbows and muzzleloaders. BDX combo kits will now come pre-bonded from the factory. All users have to do to use their systems now is mount and zero their riflescopes. If users want to unlock the complete feature set of BDX, they are still able to do this via the smartphone app.

BDX RANGEFINDER

BDX kits come pre-bonded right out of the box

When purchasing a rangefinder and riflescope together there is no setup necessary. Simply mount and zero your riflescope and you are ready to go.

QuickBond ™ for app-less bonding of BDX equipped rangefinders and sights

There is no need for the smartphone app to connect your BDX devices. Simply press and hold two buttons and your BDX rangefinder will bond with the nearest BDX enabled sight.

Pre-loaded ballistic groups now available on KILO® BDX rangefinders to quickly get you on target

Every BDX rangefinder now comes preloaded with 9 distinct ballistic groups. These groups represent the ballistics for each popular centerfire caliber available, as well as crossbows and muzzleloaders. Simply pick the group that matches your caliber.

Download the BDX app to unlock the full advanced capabilities and features of the BDX system

Setup a custom profile utilizing the Applied Ballistics® bullet library and the exact muzzle velocity of your firearm. BDX will do the rest.

BDX RIFLESCOPE

The powerful SIERRA3BDX and SIERRA6BDX riflescopes revolutionize the art of holdover calculation. Again, set your ballistic profile in the SIG BDX app, sync the app with your riflescope and then configure multiple holdover points in the digital ballistic reticle. When you view your target through the reticle each of your exact holdover points is illuminated. No more turrets to adjust or calculations to make.

BDX SYSTEMS

When used together, KILO BDX rangefinders and SIERRA3BDX riflescopes combine to create the most advanced optics system available on the market today. Simply configure your ballistics profile in the BDX app, pair your KILO BDX rangefinder with the app, and then bond it to your SIERRA3BDX riflescope. When you range your target the KILO BDX rangefinder automatically sends your specific holdover data to your SIERRA3BDX riflescope giving you an illuminated holdover dot. It's simple and fast.

CONNECT THE DOT®.

Learn more about the BDX System at sigsauer.com/electro-optics

THE WORLD'S MOST ADVANCED...

RIFLESCOPES

- BDC Reticle is Customized to Shooter's Ballistics and Environmental Profile Prior to Hunting
- BDC Reticle can be set with Up to Eight Holdover Dots at Any Distances Out to 800 Yards
- Digital Focal Plane™ Reticle Scales with Zoom like a First Focal Plane Riflescope
- HD Glass and Spectracoat™ Lens Coatings
- Levelplex™ Digital Anti-Cant System

RANGEFINDERS

- Embedded Applied Ballistics® Ultralite Engine with Extensive Bullet Library with Support for G1/G7 Drag Curves
- Save up to 25 Custom Ballistic Profiles in the SIG BDX App
- Active Ballistic Profile and Environmentals Sync to Rangefinder
- Windage and Elevation Holds in MOA or MILS with Every Target Ranged
- Lightwave DSP™ leverages 4x/Second HyperScan and RangeLock Technologies for the Fastest Ranging Performance

OPTICS SYSTEM

SIG SAUER® Electro-Optics transforms hunting with the unprecedented simplicity and accuracy of BDX. KILO® BDX rangefinders use your ballistics and Bluetooth® to illuminate the exact holdover dot in SIERRA3BDX riflescopes. For the most accurate and ethical shot, just **CONNECT THE DOT®**.

SIERRA6 BDX

RIFLESCOPES WITH BALLISTIC DATA XCHANGE

Built upon SIERRA3 award-winning technology, and the SIG SAUER® BDX Ballistic Data Xchange technology, the SIERRA6 family of riflescopes provides the hunter or marksmen with an intelligent auto-holdover specific to their ballistics, target, and environment. Pairing a SIERRA6 to a BDX equipped rangefinder allows users to bring the capability of Applied Ballistics® into the field without the need for a mobile device.

STANDARD FEATURES

- Integrated BDX Ballistic Data Xchange 2.0 with Up to 95% Light Transmission
- Advanced HDX® 6x Optical System
- Automatic Hold-over Dot on a Digital Focal Plane
- Ballistic Profiles Compatible with Centerfire, Muzzleloader, and Crossbow Platforms
- Innovative KinETHIC™ Kinetic Energy Transfer Indicator for Ethical Shots
- Dependable Waterproof and Fog-Proof Performance (IPX-7 for Complete Immersion up to 1 Meter)
- Argon Purged for an Enhanced Lifetime of Performance
- Levelplex™ with Auto Levelplex Mode

KILO3000BDX™

BDX® BALLISTIC DATA XCHANGE LASER RANGEFINDER

Featuring SIG SAUER BDX technology, the KILO3000BDX is one of the world's most advanced laser rangefinders. When paired with a BDX enabled product, the onboard Applied Ballistics® Ultralite calculator sends ballistic drop data via Bluetooth® directly to the BDX sight, providing an illuminated holdover dot and wind hold. Download the free BDX App for iOS or Android to setup ballistic profiles and synchronize custom profiles to your KILO® for exact ballistic solutions.

Powered by:

APPLIED BALLISTICS

STANDARD FEATURES

- Will Range Up to 5,000 yards with Results Displayed to the Nearest 1/10th Yard
- Lumatic OLED Display, Continuously Monitors Light Conditions & Adjusts the Display Brightness Accordingly
- Multi-Position Twist-Up Eyecups Provide a Custom Fit for Each User
- Compact, Lightweight Aluminum Housing with Dual Diopter Adjustment
- User-Selectable Target Modes Featuring LAST or BEST Mode for Pinpoint Accuracy
- Powered by a Lithium CR2 Battery
- FOV = 32 ft/100 Yards / 6.1 Degrees

TANGO6T OPTIC HAS BEEN SELECTED BY:

The U.S. ARMY Squad Designated Marksman Rifle (SDMR)
USSOCOM Squad-Variable Powered Scope (S-VPS)
The U.S. Air Force

TANGO6T™

THE CHOICE OF THE U.S. ARMY AND SPECIAL OPERATIONS

TANGO6T riflescopes have been selected by the US Army and USSOCOM to deliver unmatched performance and optical clarity when it matters most. TANGO6T riflescopes are MIL-STD810G tested and approved and are assembled in the U.S.A.

STANDARD FEATURES

- 6x Super-Zoom Advanced Optical System
- First and Second Focal Plane Reticles
- Throwlever Included with all SKUs
- Fast Focus Eyepiece
- Waterproof (IPX-8 rated) and Fog-Proof Performance
- Night Vision Illuminated Reticle Settings with Locking Dial
- Laser Engraved Mounting Line to Align Riflescope to Scope Rings
- Flat Dark Earth (FDE) or Black Anodize Finish Options
- Assembled in the U.S.A.

TANGO6™

PRECISION TACTICAL RIFLESCOPES

The TANGO6 super-zoom 6x riflescope family has you covered for mid to long-range engagements, precision rifle competitions to big game hunting. From bolt actions to MSR's, the TANGO6 is built for versatility.

STANDARD FEATURES

- 6x Super-Zoom Advanced Optical System
- Sunshade Included
- Fast Focus Eyepiece
- Hellfire® Reticles: Fiber Optics to Vary Intensity of Central Aiming Point
- Waterproof (IPX-7 rated) and Fog-Proof Performance
- T-120 Tactical Turret with 120 Clicks Per Revolution

FREE CUSTOM SBT®
WITH SELECT TANGO6™ PURCHASES

Levelplex Digital Anti-Cant System utilizes an integrated digital level with user selectable reticle cant detection at +/- 0.5° or +/-1° sensitivity.

TANGO6 5-30X56 WITH LEVELPLEX™

34MM MAINTUBE
SOT65111 / SOT65112 / SOT65113 / SOT65114

- Designed for MSR/AR and Bolt Action Platforms
- Long-Range Precision Shooting, Tactical Engagements and Long-Range Hunting
- Fiber Optic Power Indicator
- Offered in FFP with Multiple Reticle Options
- Levelplex Anti-Cant System

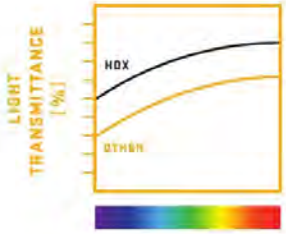

TANGO6 3-18X44 WITH LEVELPLEX

34MM MAINTUBE
SOT63111 / SOT63112 / SOT63113 / SOT63114

- Designed for MSR/AR and Bolt Action Platforms
- Ideal for Mid-Range Tactical Engagements and Hunting
- Offered in FFP with Multiple Reticle Options
- Levelplex Anti-Cant System

HDX®

Advanced optical systems comprising both High Definition (HD) and High Transmittance (HT) glass for ultra-high resolution, optical performance, and light transmission.

TANGO4™

LONG RANGE PRECISION RIFLESCOPES

With a 4x zoom first-focal plane design, illuminated glass reticles, and revolutionary resetable zero turret, TANGO4 riflescopes are the ideal solution for mid to long-range tactical engagements, designated marksmen, competitive shooters, and hunters.

STANDARD FEATURES

- 4x Super-Zoom Advanced Optical System
- Lensarmor™: Abrasion-Resistant Lens Coatings
- Built-in Throw Lever Included
- Resettable Zero Turret
- Low Dispersion (LD) Glass Provides Optical Clarity for any Situation
- Lenshield™: Proprietary Mil-Spec Oleophobic Coating for Clean Images
- Waterproof (IPX-7 rated) and Fog-Proof Performance
- Stealth ID™: Deflection Armor Surfacing for Less Detection

WHISKEY5™

PRECISION TACTICAL HUNTER RIFLESCOPES

Built to perform in the toughest hunting conditions, the WHISKEY5 super-zoom 5x riflescope line from SIG SAUER® brings the hardest of targets into sharp focus and features the proprietary HDX® optical system, for extreme clarity and low-light performance, and Hellfire® fiber optic illuminated reticles.

STANDARD FEATURES

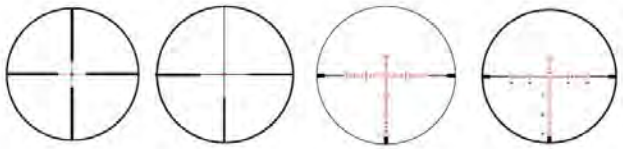

- 5x Super-Zoom Advanced Optical System
- Stealth ID™: Deflection Armor Surfacing
- Spectracoat™: Reduces Surface Reflections
- HDX Optics: Unequaled Light Transmission and Optical Clarity
- Hellfire Reticles: Fiber Optics to Vary Intensity of Central Aiming Point
- Lenshield™: Proprietary Mil-Spec Oleophobic Coating for Clean Images
- Waterproof (IPX-7 rated) and Fog-Proof Performance
- Fast Focus Eyepiece
- Offered in Second Focal Plane (SFP) and Multiple Reticles

KILO®

DIGITAL LASER RANGEFINDERS

The KILO family of Digital Laser Rangefinders is engineered for extreme accuracy. KILO products are the most advanced, and yet simple to use, rangefinders on the market today. Updating at 4x per second in HyperScan mode, all KILO rangefinders come with proprietary LightWave™ DSP technology, are lightning fast, and amazingly accurate.

KILO1600™ RANGEFINDER

6X22MM
SOK16608

- Ranges up to 2000 Yards with the Revolutionary Lightwave DSP Technology for the Fastest and Longest Distance Rangefinder Engine
- Features Line of Sight (LOS) or Angle Modified Range (AMR). Units in Yards or Meters to Tenth Y/M Resolution
- Transparent OLED Display
- User-Selectable Target Modes Featuring LAST or BEST for Pinpoint Accuracy
- Simplified User Interface with RANGE and MODE Buttons Only

RANGES	Up to 1000 YDS DEER	Up to 1200 YDS TREES	Up to 2000 YDS REFLECTIVE

OUTDOOR LIFE EDITOR'S CHOICE

KILO2400ABS™ RANGEFINDER

7X25MM
SOK24701

- Ranges up to 2 miles with the Revolutionary Lightwave DSP Technology for the Fastest and Longest Distance Rangefinder Engine
- Advanced Rangefinder Featuring an Embedded Applied Ballistics® Elite Calculator and Bluetooth® for Synchronizing with a Free Applied Ballistics App. Available on Both IOS and Android Platforms
- Integrated Temperature, Humidity, Pressure, and Compass
- New Milling Reticle with 2.4 MRAD Inner Diameter and 3 MRAD Outer Diameter Center Aiming Circle. Milling Features are 5 MRAD to the Dots and 10 MRAD to the Lines.
- Includes a Tripod Adapter, Smartphone Jack WindMETER, Ballistic Nylon Molle Kit Bag, Nylon Carry Pouch, Tactical Pen/Stylus, Lanyard, and 3 Spare Batteries
- Assembled in U.S.A.

RANGES	Up to 1400 YDS DEER	Up to 1800 YDS TREES	Up to 3400 YDS REFLECTIVE

Powered by:

KILO2400ABS DISPLAY

Configurable reticle with 3 options: Center Aiming Circle only, Center Aiming Circle and Horizontal Milling Grid, and Center Aiming Circle and Horizontal and Vertical Milling Grid

KILO1000™ RANGEFINDER

5X20MM
SOK10001

- Ranges up to 1200 Yards with the Revolutionary Lightwave DSP Technology for the Fastest and Longest Distance Rangefinder Engine
- Features Line of Sight (LOS) or Angle Modified Range (AMR). Units in Yards or Meters to Tenth Y/M Resolution
- High Transmittance LCD display
- User-Selectable Target Modes Featuring LAST or BEST for Pinpoint Accuracy
- Simplified User Interface with RANGE and MODE Buttons Only

RANGES	Up to 800 YDS DEER	Up to 1000 YDS TREES	Up to 1200 YDS REFLECTIVE

ROMEOZero™

MICRO OPEN REFLEX SIGHT

The fastest, most accurate, ultra-compact micro reflex sight. The ROMEOZero optimized for everyday concealed carry, and pistols with slim slide profiles. The sight features a ruggedized, WeaponsGrade™ textured polymer body and the Spectracoat™ HD Polymer lens system. The ROMEOZero enables rapid target acquisition in an everyday carry package at an iron sight price.

Designed for use on
SIG SAUER® P365 Pistols
with Optics Ready Slides

new

ROMEOZERO

1x24MM
SOR01300 / SOR01600

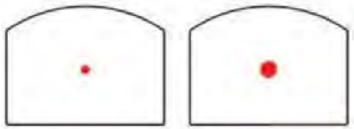

- Specracoat HD Polymer Lens with 10 Times the Impact Resistance over Traditional Glass Lenses
- WeaponsGrade™ Ultralite Polymer Housing Optimized for use with Polymer Pistols, Concealed-Carry and also Slim Slide Profiles such as Single-Stack 1911s, and Subcompact Firearms.
- Stippling Pattern on the Housing Matches P365® and P365XL Grip Pattern, for an Integrated Look
- 8 vivid, User Configurable Daytime Illumination Levels
- MOTAC™ (Motion Activated Illumination System) that Powers Up when it Senses Motion and Powers Down when it does not
- Parallax Free
- Highly Efficient, Point Source LED Emitter for a Crisp Dot that is 8 Times more Efficient than Conventional Red Dots
- 10 Year Battery Life – Unrivaled in a Micro Reflex Sight
- Assembled in U.S.A.

ROMEO1™

MINIATURE OPEN REFLEX SIGHT

Designed for fast, responsive target acquisition, and accuracy. The miniature open-reflex ROMEO1 Red Dot sight was engineered to withstand the punishment of diverse environments.

STANDARD FEATURES

- Molded Glass Aspheric Lens for Superior Light Transmittance and Zero Distortion
- Manual Illumination Controls that Remember your Last-Used Settings
- 3 or 6 MOA Red Dot with Multiple Brightness Settings for Rapid Target Engagement Under a Full Range of Lighting Conditions
- MOTAC™ (Motion Activated Illumination) Powers up when it Senses Motion and Powers down when it does not
- Top-loading CR1632 Battery, Allowing for Quick Battery Replacement Without Removal from the Firearm
- Waterproof (IPX-7 Rated for Complete Immersion up to 1 Meter) and Fog-Proof Performance
- Designed for Modern Semi-Automatic Pistols, MSR Platforms and Shotguns
- TruHold™ Lockless Zeroing System that Utilizes Twin Adjustment Springs Designed to Endure Handgun Recoil and Return to Zero Shot after Shot

ROMEO1

1x30MM

SOR11000 / SOR11001 / SOR11005 / SOR11600 (6MOA)

- ROMEO1 is compatible with legacy optics-ready SIG SAUER® pistols, such as the original P320RX, Classic Line RX, and P320 X-FIVE® pistols. It is not compatible with newer SIG SAUER optics-ready pistols that have the "PRO" slide cut. Those pistols accept the new ROMEO1PRO.

ROMEO1 Shroud Kit Also Available.

OSCAR®

SPOTTING SCOPES

The OSCAR family of spotting scopes delivers unmatched image clarity and performance when it matters most. The OSCAR3 mini spotting scope puts a powerful optic in the palm of your hand, and features the advanced Optical Image Stabilization (OIS) technology, for improved image quality at the highest magnification, to make spotting your target faster and easier. Ideal for backpacking, hunting, wildlife and sports observation, along with law enforcement and military reconnaissance. The new OSCAR8 angled eyepiece spotting scope is the newest addition to the OSCAR family of spotting scopes from SIG SAUER®. Featuring the industry-leading HDX® optical design, extra-low dispersion glass with high light transmittance glass, and full multi-coated lenses to deliver unmatched resolution, image contrast, and color clarity. When spotting in the field for long periods, the ergonomic design and durable rubber armor of the OSCAR8 delivers unmatched results in all conditions.

OSCAR3™

10-20X30MM
SOV31001

- Advanced Electronic Image Stabilization Technology that Fits in the Palm of a Hand
- OIS Optical Image Stabilization Removes Human Motion and Jitter for Improved Image Quality and Target Identification under High Magnification
- Ideal for Backpacking, Hunting, Wildlife and Sports Observation, Law Enforcement, and Military Reconnaissance
- The Small Size and Capability of the OSCAR3 is Ideal for Backpacking, Spot/Stalk and Tree Stand Archery, or Long Range Rifle Hunting in Open Country or Mountains as well as Concealed Viewing Situations for LE or Military Use

new

OSCAR8™

27-55X80MM
SOO82001

- HDX Advanced optical system comprising both High Definition (ED) and High Transmittance (HT) glass for ultra-high resolution, optical performance, and light transmission
- SCHMIDT-PECHAN prism, combined with HD glass, provide unmatched chromatic and spherical aberration correction for clear, vibrant images
- Spectracoat™ highly efficient, ultra-wide broadband, anti-reflection lens coatings reduce surface reflections to extremely low levels across the entire visible spectrum providing superior light transmission
- Angled eyepiece, combined with rotating tripod collar, provides the user with multiple viewing angles, to accommodate setup and usage in any terrain
- Comes equipped with a variable power eyepiece. This eyepiece can be locked into place or removed so that the OSCAR8 can accept other variable or fixed power eyepieces.
- Waterproof and fog proof, the OSCAR8 will provide unmatched performance in all environmental conditions
- Adjustable eyecups allow the user to optimize eye relief for use with or without glasses
- Lightweight and robust aircraft grade aluminum housing, combined with rubberized non-slip grip armor, ensures a lifetime of use in the worst conditions
- Custom SIG SAUER fitted neoprene cover included
- Assembled in U.S.A.

LIMA®

LASER SIGHTS

The most advanced red or green lasers on the market, the proprietary LIMA Laser Grip Module and low-profile LIMA Laser integrate seamlessly with your SIG SAUER® pistol.

Standard Features

- Latest Generation 5 MW Red or Green Lasers for Unmatched Runtime
- Ambidextrous Laser Activation Supports All Grip Types
- Windage and Elevation adjustments
- Powered by Lithium 1/3N Battery
- Instant Activation Tact Switch
- Assembled in U.S.A.

RED/GREEN PISTOL LASER
SOL11001 / SOL11002

- Ideal for Target Shooting, Conceal Carry and Personal Defense
- Designed to fit M1913 and SIG Rails
- Powered by Lithium 1/3N Battery
- Instant Activation Left and Right Tact Switches
- Shown with M17 Pistol, (Not Included)

LIMA320™

RED/GREEN LASER GRIP
SOL51001 / SOL51002

- Integrates and Fits Perfectly with our P320® and P250® Pistol Platforms
- State-of-the-Art Laser Targeting in a Package that is Stealth and Virtually Invisible to the Operator
- Same Material as SIG SAUER Standard Polymer Frames and Textured to Match
- Seamlessly Integrates Either a Red (Oclaro) or Direct Green (Osram) High Quality and High Efficiency Laser Module for Extreme Accuracy
- Works with Carry, Compact and Full Size
- Shown with P320 Slide, Magazine,and Trigger Group, (Not Included)
- Assembled in the U.S.A.

LIMA38™

RED PISTOL LASER
SOL13801

- Ideal for Target Shooting, Concealed Carry and Personal Defense
- Precision Engineered to fit SIG P238 and P938 Pistols, Including Rubber Grip Variants
- Powered by Lithium 1/3N Battery
- Dual-sided Switch Supports Ambidextrous Operation
- Momentary or Continuous Activation with 5 Minute Auto-Timeout Shown with P238 Pistol, (Not Included)

LIMA365™

RED/GREEN PISTOL LASER
SOL36501 / SOL36502

- Ideal for Target Shooting, Conceal Carry and Personal Defense
- Designed to perfectly fuse against the SIG P365® trigger guard for seamless fit
- Powered by Lithium 1/3N Battery
- Instant Activation Tact Switch
- Shown with P365 Pistol, (Not Included)
- Assembled in the U.S.A.

FOXTROT®

WEAPON MOUNTED LIGHTS

The FOXTROT series of pistol lights provide bright, crisp, white light and come ready to mount on your SIG SAUER® pistol.

FOXTROT1™

WEAPON MOUNTED LIGHT
SOF11001

- White LED Runs for Over Two Hours at 200 Lumens on a CR123 Battery
- Ideal for Home Defense, Law Enforcement or Military Applications
- Mounts to Any Picatinny 1913 or SIG SAUER Proprietary Rails
- Dual, Finger-Actuated Tact Switches Support Ambidextrous Use
- Latest Generation Cree LEDs for Maximum Brightness and Runtime
- User-Selectable Output from 100 / 200 / 300 Lumens
- Momentary or Continuous On with 5 Minute Auto-Timeout
- Battery Changed Through the LED Bezel with Quarter Turn Lockout
- Dependable Waterproof (IPX-7 Rated for Complete Water Immersion up to 1 meter) and Fog-Proof Performance

FOXTROT365™

WEAPON MOUNTED LIGHT
SOF36501

- Up to 100 Lumens and 3 Hour Run Time
- Ideal for Law Enforcement, Concealed Carry and Personal Defense
- Designed to Perfectly Fuse with the SIG P365® Trigger Guard for a Seamless Fit
- Latest Generation Cree LEDs for Maximum Brightness and Runtime
- Instant Activation Tact Switch
- Powered by Lithium 1/3N Batteries
- Shown with P365 Pistol (Not Included)
- Assembled in the U.S.A.

X-RAY®

ENHANCED DAY/NIGHT SIGHTS

The X-RAY family of pistol sights make target acquisition intuitive and fast in any lighting condition. The high contrast front sights paired with the glare reducing rear sights keep your focus on the front sight. The X-RAY1 front sight combines a durable light pipe with a photoluminescent ring providing a bright dot in daylight and a glowing ring that will see you through the dusk transition. The X-RAY3 line uses a 3-dot tritium system for the most demanding low light environments.

X-RAY3™ ENHANCED DAY/NIGHT SIGHTS

PISTOL SIGHTS

SOX10001 (SQUARE) / SOX10002 (ROUND U) / SOX10003 (SQUARE) / SOX10004 (ROUND U)

- Three Dot Fiber Optic Sights for Fast Target Acquisition
- Luminescent Front Sight Ring Glows in the Dark for up to 1 Hour
- Available in Red or Green Light Pipe
- Round (U) Notch Sight

Standard Features

- Oversized Chemical-Resistant Fluorescent Polymer Front Dot Sight Gives Confidence in any Environment
- Torture Tested to 20,000 Rounds, the Steel Housing Provides a Tough, Reliable Sight that Lasts as Long as the Firearm
- Rear Sights come in Standard SIG SAUER® sizes of #6 and #8
- Fits SIG SAUER P238®, P938®, P250®, P320® and Classic Line Models

ASSEMBLED IN USA

ALPHA™

RIFLESCOPE MOUNTS/RINGS

Our hard black anodized, precision-machined, ALPHA Tactical Rings are crafted from aircraft grade aluminum. Built with the same unique industrial design as our electro-optics, our rings and mounts not only look tough, but are tough.
Our proprietary steel alloy ALPHA Hunting Rings are machined with an exactness that is both strong and ductile, which allows our rings to form around a riflescope, and will not cause damage with proper installation. The steel rings are epoxy powder coated to prevent oxidation and resist gun oils, cleaning solutions, and outdoor exposure.

SUPPRESSOR TECHNOLOGY

WELCOME TO THE FUTURE OF SILENCE.

SIG SAUER engineers have developed the next generation of pistol suppressors. With decades of product design and R&D experience under our belts, suppressors are not treated as bolt-on accessories. At SIG it is understood that suppressors interact with your firearm's system and can affect accuracy, reliability, back-pressure, and other critical factors. We design our suppressors to be part of a completely integrated system to maximize overall performance, and as a result we build the most advanced, most dependable suppressors the world has ever seen, or heard.

MOD-X9 P226 Using 147gr

MOD-X45 P220 Using 233gr FMJ

PISTOL

SUPPRESSORS

The pistol suppressor line from SIG SAUER features completely modular and configurable titanium baffles for the ultimate in lightweight performance that allows the user to personalize their suppressor for overall length, weight, and sound. The MOD-X9 and MOD-X45 provide class-leading sound performance and can be easily disassembled and reconfigured with fewer baffles when your priority is size over sound. The MOD-X suppressors feature 21 points of impact adjustment and come with a fixed barrel spacer for carbine use. Each MOD-X suppressor includes the most popular inch and metric piston for its given caliber.

MODX-45

- Shooter can Adjust the Number of Baffles to make the Overall Length when Size is More Important than Sound Performance
- Includes Two Pistons (1/2"x28tpi& M13.5x1LH) and Fixed Barrel Spacer

SIGSAUER

RIFLE

SUPPRESSORS

The next generation of suppressor technology has arrived. The SLX series of rifle suppressors from SIG SAUER was born out of today's military requirements and is designed to deliver cutting edge performance. The new Clutch-LOK QD mounting system is easy to use, repeatable, and extremely durable. The cross flow baffle design delivers an entirely new shooting experience while reducing harmful toxic gases to the user, allowing gases to expand and cool at a faster rate than the traditional baffle design, while minimizing increase in bolt speed.

SIG AIR®

BY SIG SAUER

From the most elite name in firearms comes the most innovative line of airguns and airsoft guns that combines the unmatched reliability, performance, and exacting standards of SIG SAUER.

The SIG AIR product line includes a series of traditional CO_2 pellet and BB rifles and pistols, that are designed to imitate the look, weight, balance, and handling characteristics of their traditional firearms counterparts. SIG AIR has developed a precision line of break barrel, pre-charged pneumatic (PCP), and single stroke pneumatic rifles and pistols, all meeting the high standards of SIG SAUER firearms.

SIG AIR has expanded to training products with the PROFORCE® line of airsoft pistols, rifles, and accessories. Designed and developed from the ground up to deliver a realistic training experience that allows the user access to acheive a new level of unrealized performance potential. The SIG AIR PROFORCE series of pistols and rifles allows for flexability in your training environment and is an economical alternative to training with firearms.

A heavy emphasis on consistency was the focus when developing the SIG AIR PROFORCE line. Each PROFORCE model closely matches it's real steel complement in model specs and delivers an authentic user experience. The PROFORCE line is also engineered to SIG quality standards using authentic materials and, where necessary, patented performance innovations.

Perfected for muscle memory exercises, shooting drills, and tactical training, these airsoft and airgun models are the economic and authentic answer to training more often, more effectively, and more affordably.

The full line of SIG AIR products delivers a completely authentic SIG handling experience with the firepower you can rely on for all of your hunting, sporting, and practical training needs.

Shoots like a SIG, Because it is One.

·SIG AIR products are reccommended for ages 18 plus.

MCX VIRTUS PCP

SEMI-AUTOMATIC PRE-CHARGED PNEUMATIC RIFLE

The MCX VIRTUS PCP rifle is the latest expansion to the SIG AIR® precision line of airguns, and the introduction of SIG AIR products to the pre-charged pneumatic (PCP) category of airguns. The MCX VIRTUS PCP doubles the muzzle energy of classic CO_2 models and uses the SIG Rapid Pellet Magazine making it ideal for target training and varmint hunting.

SIG AIR® ACCESSORIES

ENGINEERED TO A NEW STANDARD OF PERFORMANCE

SPEC1

PREMIUM AIRGUN AND AIRSOFT ESSENTIALS

SIG AIR is pleased to introduce SPEC1 non-toxic, nonhazardous, pure synthetic-based lubricants to keep your airgun and airsoft products protected and running smoothly. Free from Teflon, silicone and petroleum, SPEC1 lubricants contain an anti-wear agent that reduces friction and wear by 95-98%. They will not harden or become sticky or tacky and do not freeze or gum up when used with CO2. Excellent at displacing moisture, they will not attract dust, dirt, or sand. SPEC1 cleans, lubricates, and protects.

REFLEX SIGHT

Designed for fast, responsive target acquisition with the M17/M18 PROFORCE® and M17 pellet pistol with a 23mm field of view. Mounting plates included to quickly and easily upgrade your SIG AIR pistol.

SIG AIR
Reflex Sight

HAND PUMP

The SIG AIR High-Pressure Hand Pump provides an affordable, reliable, and inexpensive method for filling your PCP airguns. For use with the 13 cu.in tank on the SIG Virtus PCP rifle, but made to work with any brand of PCP gun with a male Foster quick-disconnect fitting. The 3-stage pump goes up to 4500 psi and includes an integral air pressure gauge.

SHOOTING TARGETS

Whether you are training in your garage, basement, or back yard, there is a SIG AIR Target to suit your training needs.

PELLETS

PRECISION MEETS PERFORMANCE

SIG AIR® lead pellets offer a variety of shapes for all uses and differing levels of shooters. Options for shooting paper targets, or metal field targets and silhouettes, SIG AIR pellets will fit the needs and performance required for every shooter.

AIR CYLINDERS

PREMIUM AIRGUN PERFORMANCE

Available high quality, CO_2 cylinders and PCP air tank provide solid platforms for consistency and reiliability. The use of SIG premium air cylinders for your SIG AIR products will ensure long lasting SIG performance.

MAGAZINES

ELEVATE YOUR FIREPOWER

Utilizing a variety of different style magazines with innovative features, such as cam lever loading and the patented Rapid Pellet Magazine (RPM), SIG AIR magazines are engineered to elevate performance and firepower in all of your SIG AIR products.

ABOUT OUR COURSES

FACILITIES

The SIG SAUER Academy℠ offers 140 acres of state-of-the-art indoor and outdoor training facilities. We have developed a variety of ranges and infrastructure allowing us to create almost any type of environment and to prepare for practically any situation. Facilities include:

- 26 Different Live Fire Ranges
- 1,000 Yard Rifle Range
- 2 Live Fire Shoothouses
- Indoor Pistol and Rifle Ranges
- 270 Degree Range
- Tactical Training with Breaching Capabilities
- Obstacle Course
- Vehicle Defense Range

Additionally, the SIG SAUER Academy is home to the **factory-direct SIG SAUER Pro Shop**, displaying the entire line of SIG SAUER pistols, rifles, electro-optics, suppressors, ammunition, air guns, accessories, and apparel.

PRIVATE AND MOBILE TRAINING

The SIG SAUER Academy is dedicated to providing the highest level of training available, tailored to fit any individual or organized group needs. We provide customized private classes at our Academy, or we can take our expert training to a private location upon request.

Private classes for corporate and executive clients, as well as government agencies and private groups, or individuals, are available either as a standard course listed on our website or as a custom class designed to your specific needs. Private instruction ranges from foundational shooting tutorials to advanced dynamic tactics in a one-on-one or group learning environment.

INTERNATIONAL CUSTOMERS

The SIG SAUER Academy has a diverse staff of expert, bilingual instructors that provide the highest level of training and instruction to international civilian and military/law enforcement customers.

SIG SAUER Academy staff have consistently trained with some of the world's most elite counterterrorism units, providing expert instruction across a wide range of training needs. Our staff and facilities can provide any level of instruction needed to international clients, and can provide all of the necessary equipment and materials, including all tactical equipment and firearms no matter what manufacturer or platform is required.

PISTOL/RIFLE/SHOTGUN/PRECISION SCOPED RIFLE

The SIG SAUER Academy has programs that are designed to achieve results across a broad range of platforms, from pistols and rifles, to shotguns and precision long-range shooting. All courses are taught from a foundational level and have a progression structure allowing students to develop their skills at their own pace. Depending on your personal training objectives, we offer classes for personal and home defense, individual skill building, and instructor certification.

ADVANCED TRAINING

Advanced training courses are designed to take a student's skills to an extremely high level. These classes help provide students the knowledge, skills, and confidence to improve their performance and decision-making in a high-risk, high-stress environment. These courses include specific subjects such as low light pistol and rifle, advanced medical training, executive protection, as well as vehicle and scenario-based training.

ARMORER

SIG SAUER is one of the many major manufacturers that offers civilian armorers courses. Our armorer's certification gives students a complete and thorough understanding of SIG SAUER firearms, proper maintenance techniques, and inspection processes. These courses are designed to provide all of the necessary information to preserve the firearms factory warranty. Students who successfully complete these courses receive a three year armorer certification.

LAW ENFORCEMENT/MILITARY

SIG SAUER Academy is dedicated to providing the highest level of global training for military and law enforcement professionals. Courses include specific subjects such as bus and vehicle assault, night vision, breaching, and direct threat care. Any course can be conducted remotely or customized to meet agency or department needs. Custom course design and implementation allow for any desired capability and duration of training. The SIG SAUER Academy also has physical fitness facilities available to visiting groups at no charge.

SIG SAUER
ACADEMY

MORE THAN TRAINING. A DESTINATION.

SIG SAUER ACADEMY℠ is located in the Seacoast region of New Hampshire, just an hour north of Boston, and an hour south of Portland, Maine. New Hampshire is home to 18 miles of New England coastline and beaches, and is situated approximately an hour away from several top-rated ski resorts in the White Mountains. Nearby historic Portsmouth is a favorite tourist destination, featuring nationally-recognized restaurants and cuisine, outdoor sight-seeing activities, local boutiques, tax-free shopping, and a thriving nightlife. There are several major transportation hubs allowing easy access along with a wide variety of accommodations available nearby.

PRO SHOP

The SIG SAUER Academy Pro Shop is a full-service, factory-direct retail store open to the public, located on the grounds of the SIG SAUER Academy. The Pro Shop features the entire line of SIG SAUER pistols, rifles, electro-optics, suppressors, ammunition, airguns, accessories, and apparel and also has armorers services available on-site. The Pro Shop staff are highly trained and can provide expert advice on all of the latest SIG SAUER products.

ACCOMODATIONS

Through partnership with SIG SAUER®, we offer special rate arrangements with local hotels in Exeter, Dover, and Portsmouth NH, all within 10-30 minutes of the Academy.

TRANSPORTATION

The SIG SAUER Academy is about 30 minutes east of Manchester, New Hampshire Airport (MHT), and about an hour north of Boston International Airport (BOS) in Massachusetts. Some SIG SAUER partner hotels also offer students free shuttle access to and from the Academy.

EXETER

Boasting tree-lined streets and a wealth of historical architecture, Exeter is a quick 10 minutes from the Academy and hosts three of our preferred hotels. With ample restaurants, shopping and night life, this picturesque river town is a convenient place to stay while training at the Academy and is roughly 10 miles inland from the coast.

PORTSMOUTH

Venture into downtown Portsmouth, where you'll find a steady mix of modern and historic flair. From cobblestone-lined streets and historic buildings, to waterfront dining and local breweries, Portsmouth is not to be missed while here.

TEAM SIG

A TEAM OF THE HIGHEST CALIBER, COMMITTED TO EXCELLENCE

The mission of Team SIG is to support the development and production of the SIG SAUER® P320® pistol platform, the complete SIG SAUER rifle product line, SIG SAUER Electro-Optics, and SIG SAUER Ammunition. Team SIG works closely with the SIG SAUER engineers throughout the development and design of all SIG SAUER products to ensure every shooter enjoys the features that the Team SIG professional shooters demand.

ABOUT OUR SHOOTERS

MAX MICHEL - TEAM CAPTAIN

Max Michel, Jr. is one of the most dominant shooters in the world today and is recognized as a top-tier athlete and instructor. Max is a Guinness World Record holder and International Practical Shooting Confederation World Champion. He holds 8 World Speed Shooting Championships, 12 USPSA National Championships, 5 US Steel National Championships, is a 4-time Carry Optics National Champion, and holds more than 200 additional major championship victories. As an international competitor Max has represented the U.S.A. in the last seven IPSC World Shoots and returned home bearing gold each time and is set to compete once again in 2020 for Team U.S.A..

For Team SIG Max focuses primarily on carry optics competition, and as Team SIG Captain he serves as a mentor for Team SIG and is a premier brand ambassador for SIG SAUER®. Max is a U.S. Army Veteran.

Pistol: P320® XFIVE
Optic: ROMEO1™ or ROMEO3MAX™
Ammo: Match Elite (9mm)

LENA MICULEK - PRO SHOOTER

Regarded as the top female 3-Gun competitor in the world, Lena dominates both 3-Gun and PCC competition. Lena entered into the competitive shooting world in 2005 with five consecutive Sportsman's Team Challenge Sub-junior and Junior Division national titles, and at 17 years old she won her first World Champion title. Since turning pro, Lena has earned more than 75 major wins including back-to back NRA World Shoot "High Lady" tiles, a "High Lady" title for carry optics, and 8 world titles. Additionally, in pistol caliber carbine (PCC) competition Lena is breaking barriers for female professional shooters. She is a two-time national female champion for PCC and was the first female to earn a top-five finish in PCC and was the first female to win Master Class for PCC.

For Team SIG Lena competes primarily in pistol caliber carbine (PCC)and 3-Gun competition.

Pistol: P320 XFIVE
Rifle: SIG MPX® PCC
Optic: ROMEO3™ and TANGO6T™
Ammo: Match Elite (9mm), Match (.223), Varmint (.223)

DANIEL HORNER - PRO SHOOTER

Daniel Horner is a multi-discipline World Champion shooter having captured over 125 championship titles at the world, national, regional, and state level. His titles include: 2019 All Army Champion, 10 USPSA Multi-Gun National Championships, 4 3-Gun National Championships, 2 International Sniper Competitions, 2 IDPA National Championships, an IPSC Shotgun National Championship, an NRA World Shooting Championship, and many more. Daniel is a U.S. Army Veteran and was recruited to the Army to join the U.S. Army Marksmanship Unit (USAMU), where he became one of the most decorated shooters in team history. He served as the Coach of the USAMU Action Shooting Team, and during his service was twice selected as the Military Marksmanship Association Soldier of the Year.

For Team SIG Daniel competes primarily in 3-gun and long-range rifle competition.

Pistol: P320 XFIVE with iron sights
Rifle: SIGM400®
Optic: TANGO6T™
Ammo: Match Elite (9mm), Match (.223), Varmint (.223)

PISTOL ACCESSORIES

new

SPEC1

COMPLETE PREMIUM CARE SYSTEM

SIG SAUER is pleased to introduce SPEC1, a premium firearm cleaning system. SPEC1 is a non-toxic, non-hazardous, pure synthetic-based lubricant with no Teflon™, silicones, or petroleum distillates. SPEC1 is formulated to reduce heat and wear, and to keep firearms running smoother and lasting longer. SPEC1 will not attract dust, dirt and sand, or feel sticky and tacky like most petroleum-based products on the market today. This synthetic lubricant will not dry up, freeze in cold temperatures, or allow carbon, copper, and plastic wad fouling to stick in the barrels or to gun parts. This non-toxic, non-hazardous formula is completely safe for the end user during application, cleaning, and firing.

SPEC1 **PREMIUM BLEND**

- Pure Synthetic Based Lubricant with no Teflon™, Silicones, or Petroleum Distillates
- Available in a 2oz and 4oz Bottles

SPEC1 **PREMIUM CLEANING SYSTEM**

- Premium Bore Solvent that Removes Carbon, Lead, and Plastic
- Premium Firearm Cleaner / Degreaser
- Premium Blend Firearm Lubricant

SPEC1 **PREMIUM BLEND 30 HEAVY DUTY**

- Pure Synthetic Based Lubricant with no Teflon™, Silicones, or petroleum distillates
- Available in a 2oz and 4oz Bottles
- 30 WT Equivalent

SPEC1 **PREMIUM BLEND GREASE**

- Similar Properties as the Premium Blend but in a Grease for Difficult Service Areas or Areas that Require Grease.
- 100% Synthetic

RIFLE SPECIFICATIONS

Rifle Models	Caliber	Action Type	Operating System	Stock Type	Forend Type	Weight w/o Mag	Overall Length	Collapsed Length	Folded Length	Barrel Length	Rifling	Trigger Type	Mag Type	Mag Capacity
SIG MCX VIRTUS														
SIG MCX VIRTUS PATROL	5.56 NATO	Semi-Auto	Gas Piston, Rotating Bolt	Tele/Fold 5-Position	Free-Float M-LOK®	7.9 lb	35.5"	N/A	26.5"	16.0"	1:7	2-Stage Match	AR-15 Type	30
PMCX with PCB 11.5"	5.56 NATO	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding PCB	Free-Float M-LOK®	7.4 lb	31.0"	N/A	22.0"	11.5"	1:7	2-Stage Match	AR-15 Type	30
PMCX with PCB 9"	300 BLK	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding PCB	Free-Float M-LOK®	7.0 lb	28.5"	N/A	19.5"	9.0"	1:5	2-Stage Match	AR-15 Type	30
SIG MCX RATTLER														
SIG MCX RATTLER SBR	300 BLK	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding	Free-Float M-LOK®	5.7 lb	23.5"	N/A	16"	5.5"	1:5	2-Stage Match	AR-15 Type	30
SIG MCX RATTLER SBR	5.56 NATO	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding	Free-Float M-LOK®	5.7 lb	23.5"	N/A	16"	5.5"	1:7	2-Stage Match	AR-15 Type	30
SIG MCX RATTLER PCB	300 BLK	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding PCB	Free-Float M-LOK®	5.7 lb	23.5"	N/A	16"	5.5"	1:5	2-Stage Match	AR-15 Type	30
SIG MCX RATTLER PCB	5.56 NATO	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding PCB	Free-Float M-LOK®	5.7 lb	23.5"	N/A	16"	5.5"	1:7	2-Stage Match	AR-15 Type	30
SIG MCX RATTLER CANEBRAKE	300 BLK	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding PCB	Free-Float M-LOK®	6.8 lb	29.0"	N/A	21"	5.5"	1:5	2-Stage Match	AR-15 Type	30
SIG MPX														
SIG MPX PCC	9MM	Semi-Auto	Gas Piston, Rotating Bolt	Tele/Fold 5-Position	Free-Float M-LOK®	6.6 lb	35.0"	N/A	25.0"	16.0"	1:10	Single Stage Timney	MPX	30
SIG MPX K PCB	9MM	Semi-Auto	Gas Piston, Rotating Bolt	Fixed Folding PCB	Alloy KeyMod	6.0 lb	22.5"	N/A	13.5"	4.5"	1:10	Single Stage Timney	MPX	30
SIG MPX COPPERHEAD PCB	9MM	Semi-Auto	Gas Piston, Rotating Bolt	N/A	N/A	4.5 lb	14.5"	N/A	N/A	3.5"	1:10	MIL-SPEC	MPX	20
SIG MPX COPPERHEAD K PCB	9MM	Semi-Auto	Gas Piston, Rotating Bolt	N/A	N/A	4.5 lb	22.3"	N/A	N/A	4.5"	1:10	MIL-SPEC	MPX	30
SIGM400														
SIGM400 TREAD	5.56 NATO	Semi-Auto	Direct Gas Impingement	6-Position Telescoping	Free-Float M-LOK®	6.5 lb	36.5"	N/A	N/A	16.0"	1:8	Hardened Polished	AR-15 Type	30
SIGM400 TREAD PISTOL	5.56 NATO	Semi-Auto	Direct Gas Impingement	Shockwave Brace	Free-Float M-LOK®	7.0 lb	38.0"	N/A	N/A	11.0"	1:9	2-Stage Match	AR-15 Type	5
SIG716G2														
SIG716 TREAD	7.62 NATO	Semi-Auto	Direct Gas Impingement	6-Position Telescoping	Free-Float M-LOK®	8.5 lb	37.0"	33.8"	N/A	16.0"	1:10	2-Stage Match	SR25 Type	20
SIG716 DMR G2	6.5 CM	Semi-Auto	Gas Piston, Rotating Bolt	6-Position Telescoping	Free-Float M-LOK®	8.8 lb	39.0"	33.8"	N/A	16.0"	1:9	2-Stage Match	SR25 Type	20
CROSS BOLT RIFLE														
CROSS BOLT	6.5 CM	Bolt Action	NA	SIG Precision Stock	Free-Float M-LOK®	6.4 lb	38.5"	36.5"	27"	18"	1:9	2-Stage Match	AI	5
CROSS BOLT	308 WIN 277 FURY	Bolt Action	NA	SIG Precision Stock	Free-Float M-LOK®	6.2 lb	36.5"	34.5"	25"	16"	1:10 /1:8.5	2-Stage Match	AI	5

SIG SAUER, Inc. • 72 Pease Boulevard • Newington, NH 03801 USA • +1 (603) 610-3000

An ISO 9001:2015 Registered Company. Manufacturing in the U.S.A.
